Accessories for Simon 55 LINE frames

Smartphone holder

Your phone will be safe while charging thanks to the holder mounted to the Line frame. Holder allows you to monitor the screen while you are busy, e.g. cooking. Product is available in colors of Line frames.

Small sign

Mark easily and discreetly the purpose of switch or socket. Available in 2 colors:

- light transparent,
- dark transparent.

Hanger attached to the frame

Get extra space to hang small, useful things.
Product is available in 6 colors of Line frames.

Large sign

If you need more space to mark socket or switch, choose a large sign.
Available in 2 colors:

- light transparent,
- dark transparent.

Simon|55

Modern solutions

Backlight of electronic products

Electronic products, such as dimmers, roller blind controllers, motion sensors and switches of Simon 55 GO controlled by smartphone, have the ability to change the backlight to one of seven colors and adjust the brightness. Backlight also can be turned off completely.

Personalization of electronic rockers

Take advantage of personalizing rockers with pictograms from the available database to make it easier to use electronic products. Contact our sales team to learn more about rocker customization.

Backlight of mechanical switches and push buttons

Find easily the right switch in the dark, because backlight pictogram indicates its function, e.g. two-way switch, bell push button.

As standard, backlight in mechanical switches and push buttons comes in white.

USB chargers

Forget about looking for a charger. Now it is always in its place. Use socket with double USB charger to provide power to your smartphone, smartwatch or other mobile device. At the same time, you will be able to use regular power socket.

By using a socket with a double USB A charger, you can charge two additional devices from one electrical point.

Thanks to the double charger with USB A and C type, you can easily charge your mobile devices.

Corner box

Install sockets, switches, chargers and... many others in the place where you need them.

Thanks to surface-mounted corner box, you can make any set of products from Simon 55 using Line or Duo frames.

Corner box can be installed in both horizontal and vertical position. Connect two corner boxes together (sidewise or backward) and create an aesthetic multiple set.

Corner box is available in colors of Line frames.

Digital thermostat with display

Control temperature in the room manually or by time programs using an electronic thermostat with display.

In addition to comfort, time programs allow to save on heating during hours when you are e.g. at work or on vacation.

Thermostat has a clear display with adjustable brightness and many well-thought-out functions to regulate heating.

- For controlling a stoves, radiator heads, electric underfloor heating or cooling devices
- Adjustable display brightness and contrast
- Built-in temperature sensor
- Possibility to connect an external temperature sensor
- Operating modes: manual, automatic, holiday, timer
- Automatic mode with one or three weekly calendars
- Potential-free contact 16 A
- Screen saver with button lock

Group controller

Local controller

Electronic roller blind controllers

For convenience control of roller blinds.

Controllers have **automatic calibration** function, thanks to which they record the length of roller blind. Just press the button once to close or open blind completely.

Create **central roller blind control**, or divided blinds into groups. This way you will control many roller blinds from one point, e.g. at the front door.

Function of the **favorite roller blind position** allows to remember a specific roller blind position which can be activated with a long press of a rocker from a group or central controller.

Dimmer

Use a dimmer and adjust the lighting to your interior. Quickly turn the light on or off, control its intensity and create the right atmosphere using the dimmer functions.

Built-in timed switch-off function allows to gradually turn off the lighting, e.g. in a children's room for bedtime.

Save your favorite light settings and quickly return to them.

- Set the minimum and maximum level of light
- Favorite light setting
- Dimming delay function
- Changing the brightness and color of the backlight
- Possibility to turn on and adjust the lighting using additional switches/push buttons

Motion sensor

Motion sensor to automate turning on the lighting in the room. Thanks to installation in frames, it can be used with other products, e.g. switches.

To limit the angles and direction of the motion sensor, use dedicated covers placed on the lens, which prevent its accidental activation, e.g. by passing animals. These covers are supplied with a motion sensor or can be purchased separately.

Lights for stairs and corridors

Use lighting fixtures when you want to illuminate stairs, corridors or dark rooms.

Use products with a motion sensor in places where light should turn on automatically.

Lighting fixtures come in the same shape and size as switches, dimmers and sockets. Install in a single or multiple frame to create a practical set, e.g. with a power socket.

Three light colors available:

- Warm white WW 3100 K
- Neutral white NW 4200 K
- Cold white CW 5900 K

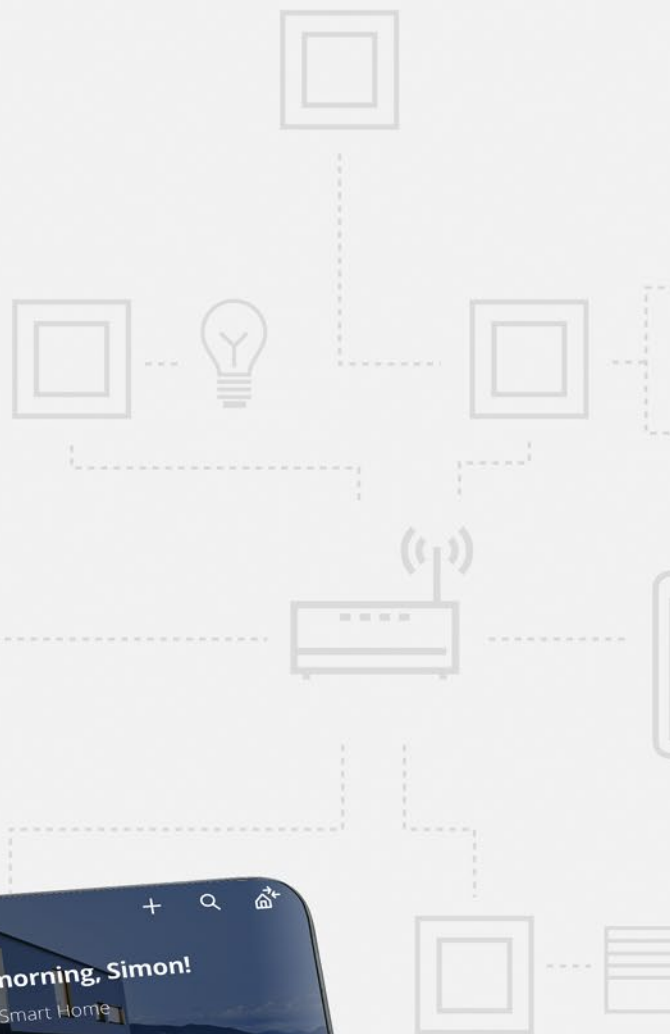

Simon|55GO

Modern products
controlled by a smartphone

Control your home
using Simon 55 GO
products and mobile
application.

Simon 55 GO is a range of modern push-button controllers that can be operated by using mobile devices (smartphone or tablet) via Wi-Fi or standardly by pressing rocker.

Simon|**55GO**

Controlled by
smartphone

Classic control

by pressing rocker

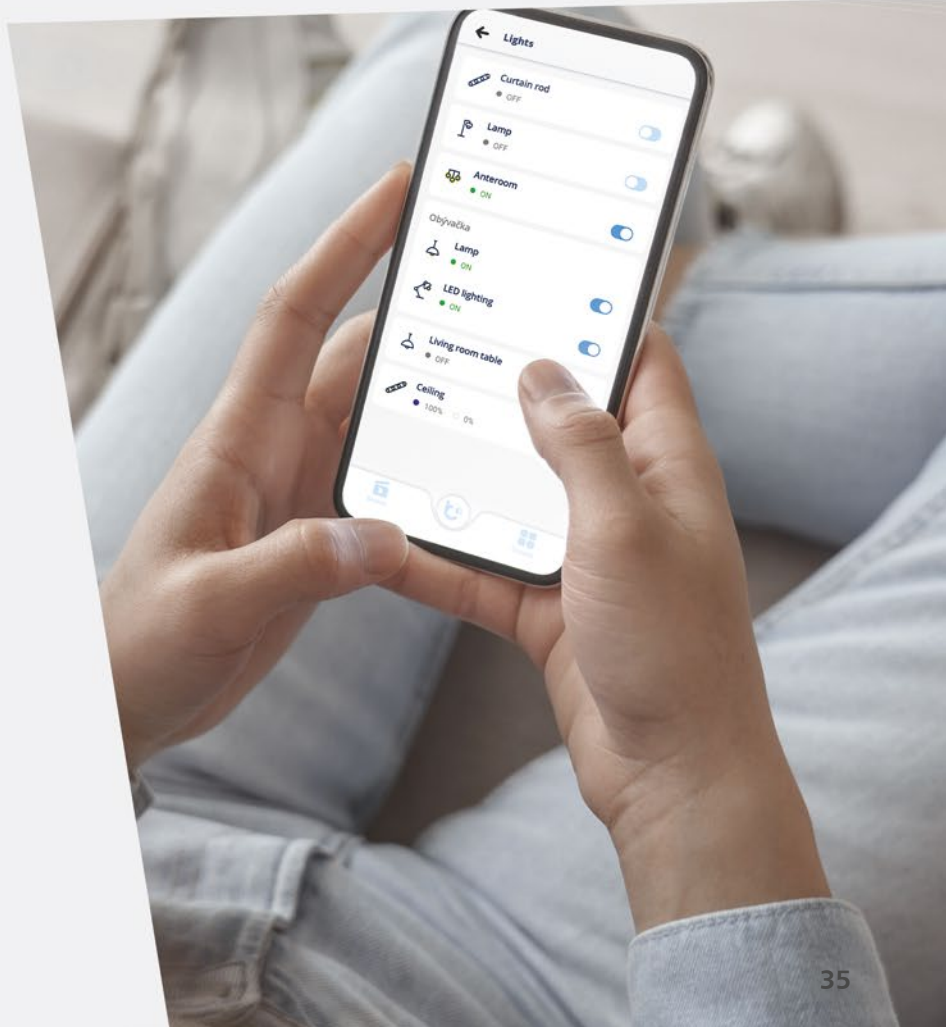

Voice control

via Amazon Alexa
or Google Assistant

Smartphone control

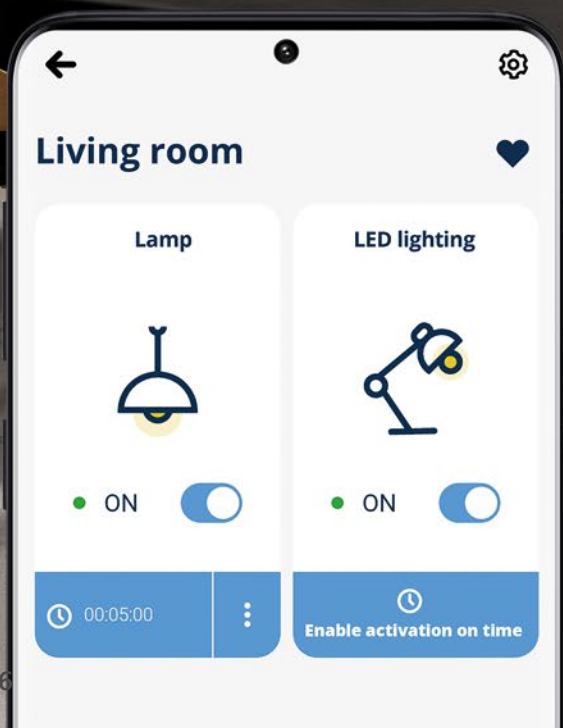

by using application available
for Android, iOS and Windows

Lighting control

By **SWITCH** and **SWITCH D** lighting controllers and the **DIMMER**, control freely lighting in your home using smartphone.

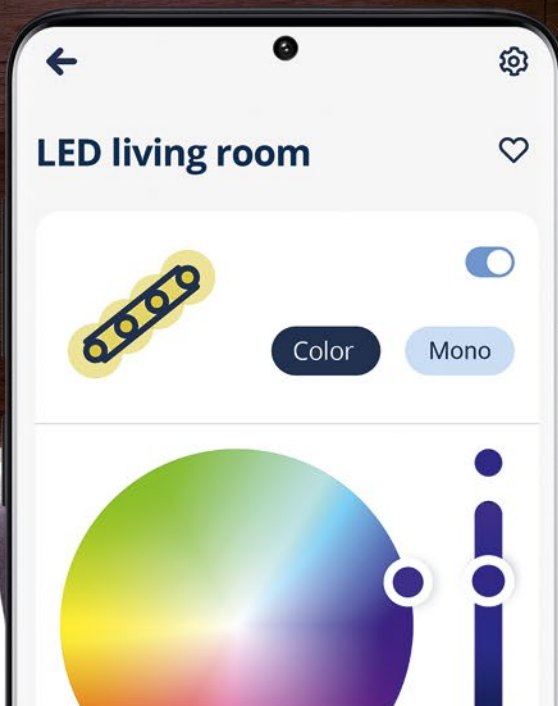

Use **DIMMER W** and **DIMMER RGBW** to control single-channel 12/24 V LED strips, RGB, RGBW or CCT stripes.

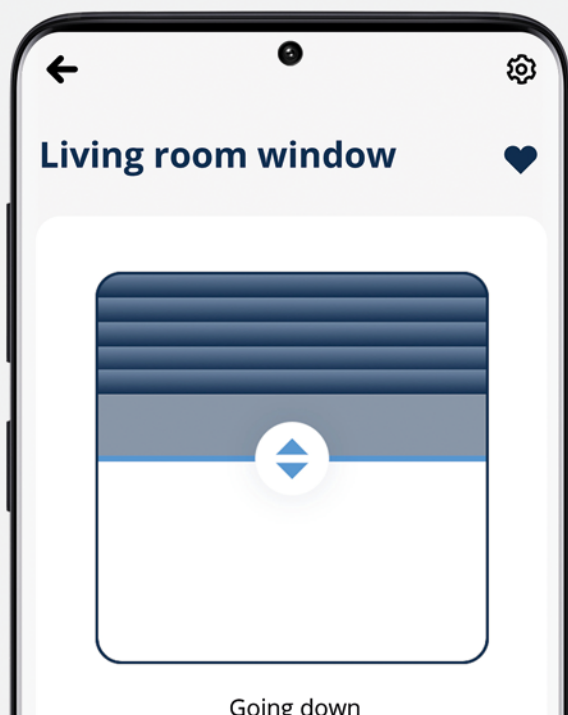

Built-in **TURN ON TIME** function, allow to turn controller into a timer and use schedules to control lighting, e.g. in relation to sunrises and sunsets.

Turn on the device for hours, minutes or seconds, also automatically, and start the function from the mobile application or by pressing the rocker.

Play with the colors of LED lighting thanks to the mobile application, by voice or by pressing a button on the wall. The **EFFECTS** function built into the LED strip drivers allows to create any lighting effects, such as: smooth color change, turning on and off or dimming of the connected LED strips.

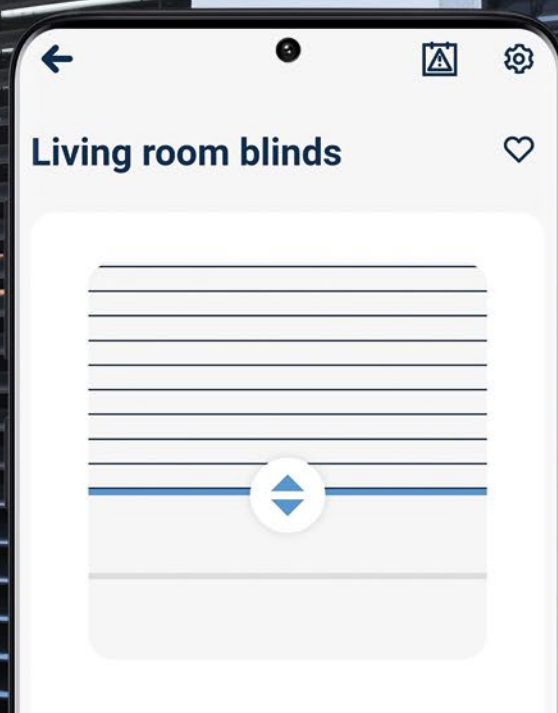

Built-in **SCHEDULE** function to automatically control roller blinds, also in relation to sunrises and sunsets in your location.

Control roller blinds or venetian blinds with **CONTROL**, **CONTROL B** or a dedicated remote. You can also use scenes or groups in the mobile application for it, or a command to the voice assistant.

Control blinds and awnings

SHUTTER controller gives a full control over roller blinds, awnings, curtains, screens and venetian blinds with variable slat angle by using a mobile application, rocker or voice.

Control it all

Manage other controllers and devices wirelessly by using **CONTROL**, the **CONTROL B** battery transmitter or the handy **uREMOTE** remote control.

Using **CONTROL OTHER DEVICES** function, connect controllers using Wi-Fi, giving you the ability to control them from multiple places.

Wirelessly connect products to create central control of blinds or activate various lighting scenes, or even control devices placed elsewhere in your home.

Expand installation with additional recessed and surface-mounted Wi-Fi controllers as well as temperature, wind, rain and air quality sensors.

Thanks to these controllers, you can open the door or gate for your guests using a smartphone, remote control or rocker of another Simon GO controller mounted on the wall at home.

Sensors will notify what is happening around home and react to the first signs of wind or raindrops. They will automatically close roller blinds, slats, roof windows, and even turn off garden watering.

Controllers and sensors

Temperature sensor

Rain sensor

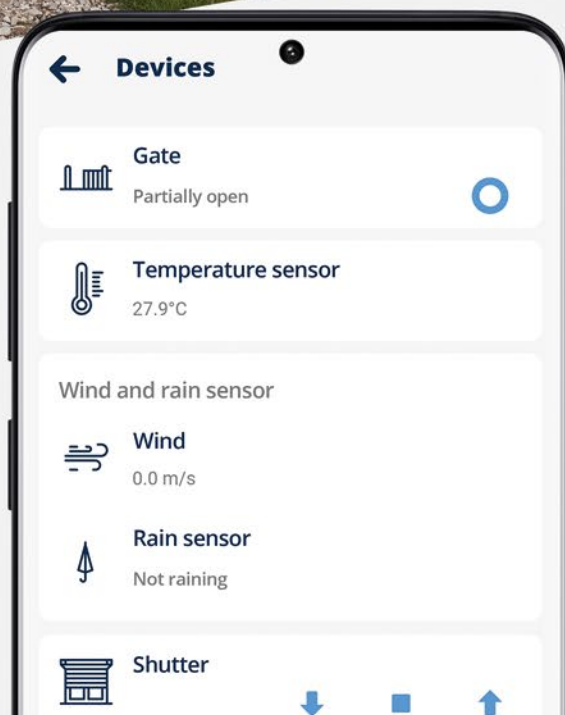

Rolling gate controller

Door controller

Gate controller

Just home Wi-Fi router needed to control lighting, blinds and other devices using smartphone or tablet.

Easy configuration

Settings and functions are configured and saved locally, directly in the controller via a mobile application or web browser.

Add other controllers

Simple add extra drivers you to scale the installation and expand it according to your needs.

Works without Internet

Lack of Internet is not a problem because all settings are stored locally and can be accessed from within home Wi-Fi network.

Updates

Stay up to date with controller software thanks to remote updates from the mobile application. New features and improvements are constantly being implemented.

Connect from all over the world

Connect to controllers from anywhere in the world via the Internet. Control your home with your smartphone while on vacation, on a business trip or during a weekend trip out of town.

Schedules

Plan the settings for controller and let it perform certain activities automatically. From now on, turning on the lighting, raising the blinds or turning on the garden watering at a specific time will become very easy. Controller will also adjust itself to sunrises and sunsets.

Share with others

Share control of drivers with other users. Decide with whom and which drivers can be shared. Each household member can have their own list of devices assigned to an individual account in the application.

Timer function

No need to use an external time switch. Simon GO controllers have a built-in timed switching function. Use it at any time.

Connect controllers with each other

Thanks to Wi-Fi, controllers can be connected between each other gaining the possibility of controlling devices from many places. Two-way, intermediate and central control now have a completely different meaning.

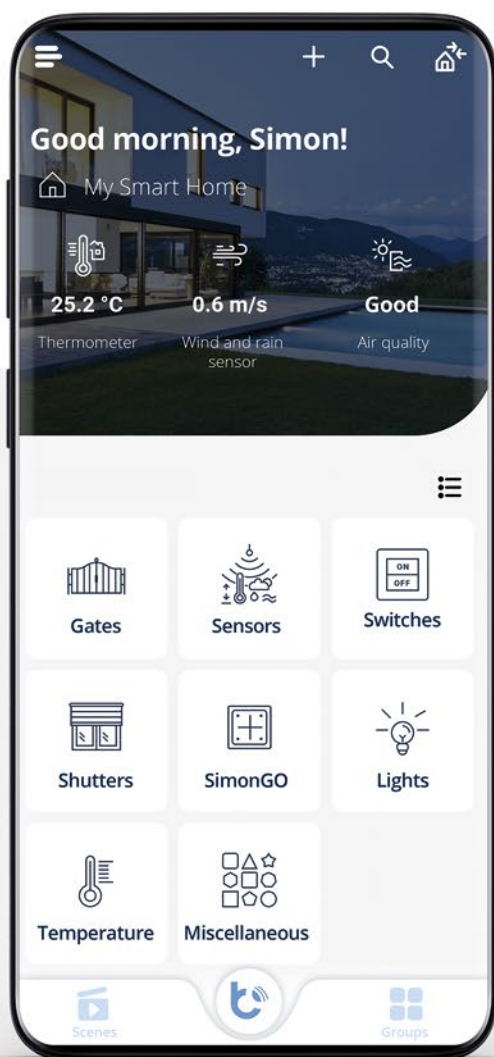

Decide how to control

Set the controllers according to the actions they are to perform. Decide whether the controller should react to a short or long press of the rocker, which part of the rocker is responsible for what, or how the relay should behave when clicked.

Mobile application

Free **wBox** application, available for Android, iOS and Windows devices, allows to control lighting, blinds and other devices connected to Simon GO controllers from home and from anywhere in the world.

wBox

Download the wBox application and discover its extensive functions. Use your smartphone or tablet to control Simon GO products installed in your home.

Download from the Google Play Store for Android devices, from App Store for iOS devices, and the Microsoft Store for Windows computers.

GOOGLE PLAY

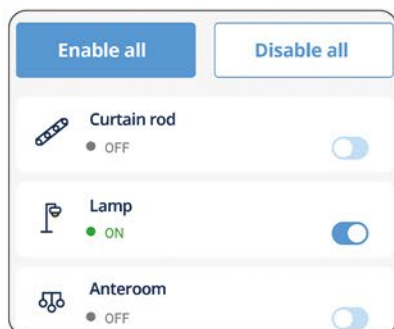

APP STORE

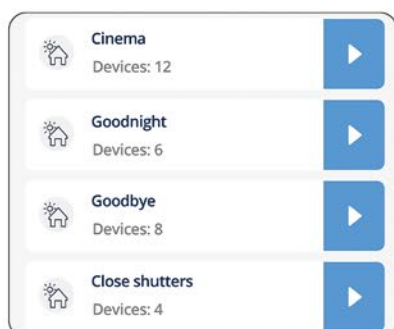

MICROSOFT STORE

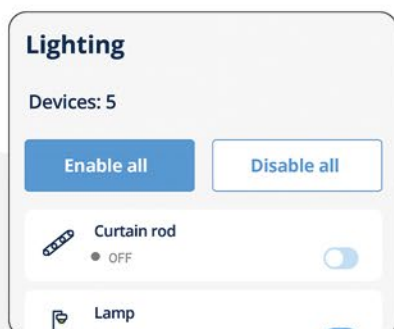

Personalize your home in the mobile app by changing the home screen wallpaper and background color. Thanks to this, you will be able to distinguish your installation at home, in the office and in the holiday house.

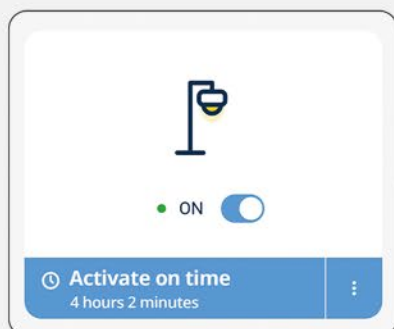

Assign appropriate icons to each Simon GO device to make it easier to find a specific controller in the application, even in the most complex installation.

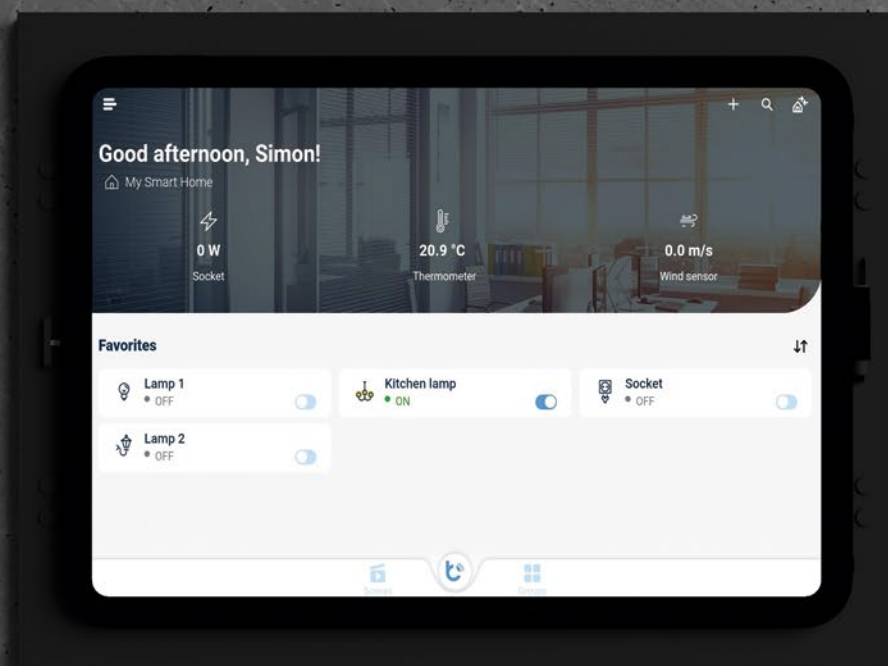

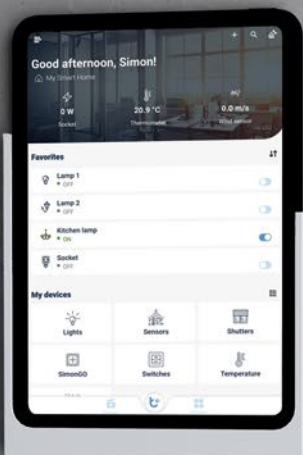

Create any scenes and controllers with programmed settings. Launch them with single press of the button.

Group devices by room or controller function. Find quickly the right device and, for example, enable the entire group of devices with one click.

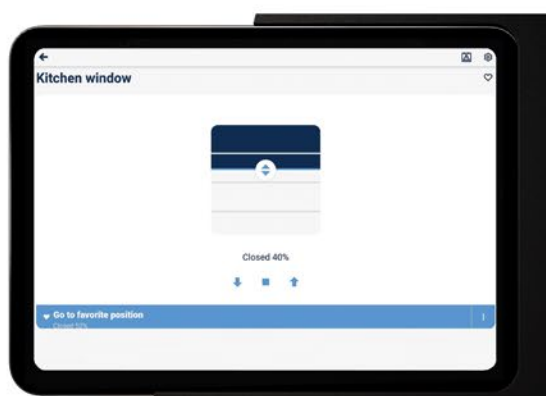

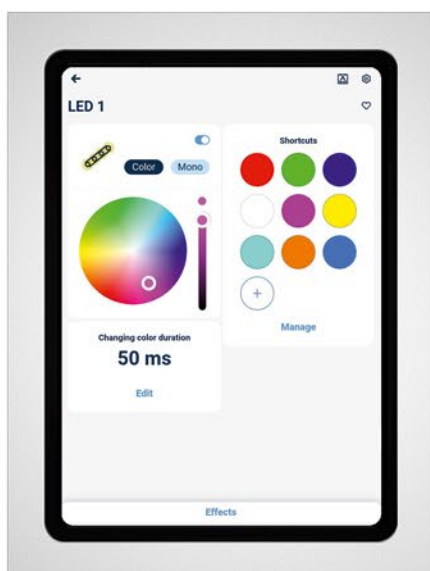

Thanks to animated icons, quickly recognize which device is currently turned on. Use the TIMER ON switches to change the status of the connected device.

Tablet frames

Always have access to Simon GO in one place. Use the tablet frame to quickly and conveniently use the wBox application. The use of the open frame version allows to pull out the tablet and use it to browse the Internet, watch a movie or play favorite game. Closed frame is ideal for public facilities where tablet should always be placed in a frame.

- Dedicated to iPad gen. 10 (10,9") and Samsung Galaxy Tab A8 (10,5") tablets
- Open or closed version
- Made of aluminum
- Two colors: white and black
- Short power cable included
- Vertical or horizontal installation
- Dedicated recessed charger available

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

SPECIAL SWITCHES

	TEW1.01/..	<p>Single electronic switch or push button with timer function (module):</p> <ul style="list-style-type: none"> • rated voltage 230 V AC $\pm 10\%$, • load current: max 16 A, • available modes: switch, push button, timer switch, • power consumption at standby < 1 W, • possibility to set the switch off delay, • changing the brightness and color of the backlight. <p>! Possibility to use in home automation.</p>
	TEW2.01/..	<p>Double electronic switch or push button with timer function (module):</p> <ul style="list-style-type: none"> • rated voltage 230 V AC $\pm 10\%$, • load current: 2×10 A, • available modes: switch, push button, timer switch, independently for each circuit, • possibility to control two circuits powered by 230 V or low voltage, e.g. 12 V, • power consumption at standby < 1 W, • possibility to set the switch off delay, • changing the brightness and color of the backlight. <p>! Possibility to use in home automation.</p>
	TEW4.01/..	<p>4-way electronic switch/push button (module):</p> <p>rated voltage 230 V AC $\pm 10\%$,</p> <ul style="list-style-type: none"> • total load current: max 16 A (category AC1) or max 8 A (category AC3), • rated load on one channel: 6 A (category AC1), 2 A (category AC3), • possibility to control four circuits powered by 230 V or low voltage, e.g. 12 V, • power consumption at standby < 1 W, • possibility to set switch off delay and switch/push button operating modes independently for each circuit, • changing the brightness and color of the backlight. <p>! Possibility to use in home automation.</p>
	TEWH1.01/..	<p>Electronic hotel room switch with LED backlight (module):</p> <ul style="list-style-type: none"> • rated voltage 230 V AC $\pm 10\%$, • rated load current 16 A, • switch off delay: 10, 20, 30 seconds, • changing the brightness and color of the backlight.
	<p>TW1K.01/..</p> <p>TP1K.01/..</p>	<p>Single switch with key (module), two positions „0-1“ N/O contact, 5 A, 250 V~. Key can be removed in any position. 2 keys included.</p> <p>Push button with key (module), two positions „0-1“ N/O contact, 5 A, 250 V~. Key can only be removed in 0 position only. 2 keys included.</p>

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

TWZK.01/..

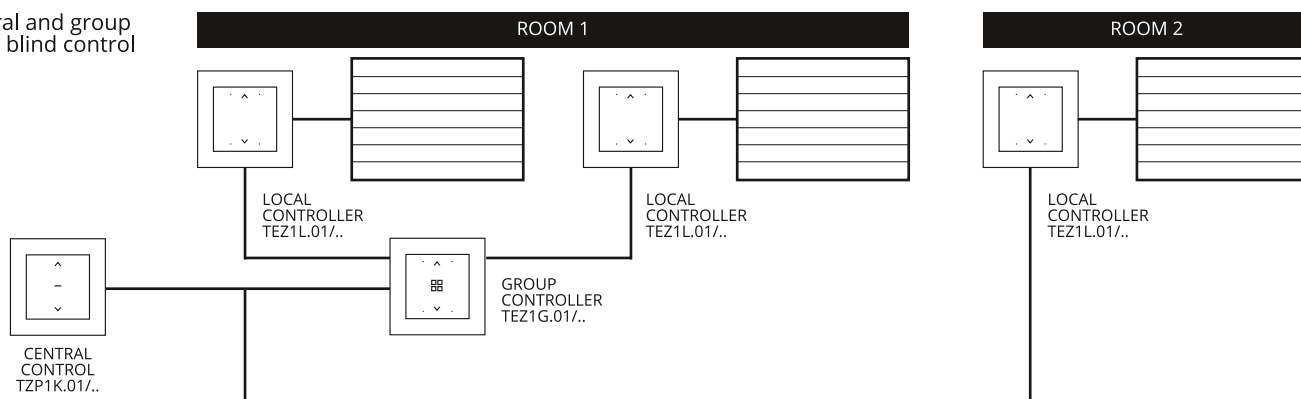

Single roller blind key switch (module), three positions „1-0-2“, 2 N/O contacts, 5 A, 250 V~. Key can be removed in any position. 2 keys included.

TPZK.01/..

Roller blind key push button (module), three positions „1-0-2“ 2 N/O contacts, 5 A, 250 V~. Key can only be removed in 0 position only. 2 keys included.

ROLLER BLIND CONTROL

Central and group roller blind control

TEZ1L.01/..

Local roller blind controller (module), to control single roller blind:

- rated voltage 230 V AC $\pm 10\%$,
 - rated frequency 50 Hz,
 - rated load current 8 A (AC1 category), 2 A (AC3 category),
 - power consumption at standby <1 W,
 - automatic or manual calibration of the roller blind length,
 - ability to program one or two favorite positions of roller blind,
 - possibility of changing the direction of roller blind movement,
 - changing the brightness and color of the backlight.
- Can be controlled by group roller blind switch TEZ1G.01/.. or roller blind push button.

! Additional wiring required.

TEZ1G.01/..

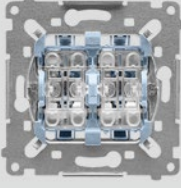

Group roller blind controller to control local controllers TEZ1L.01/.. (module):

- rated voltage 230 V AC $\pm 10\%$,
- rated frequency 50 Hz,
- rated load current 8 A (AC1 category), 2 A (AC3 category),
- power consumption at standby <1 W,
- ability to turn on the favorite position of roller blind set on individual TEZ1L.01/.. local controllers,
- changing the brightness and color of the backlight.

Can be controlled by roller blind push button or another group roller blind controller TEZ1G.01/.. to obtain central control.

! Additional wiring required.

	TGHDMI.01/..	HDMI socket (module).
	TGHDMI2.01/..	Double HDMI socket (module).
	TGHRJ45.01/..	HDMI socket + RJ45 cat.6 (module).

FIBER OPTIC SOCKETS

	TGS1.01/..	Single fiber optic socket SC/APC (module).
	TGS2.01/..	Double fiber optic socket SC/APC (module).

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

ITC SOCKETS

	TF1.01/..	Single telephone socket RJ12 (module).
	TF2.01/..	Double telephone socket RJ12 (module).
	T61.01/..	Single RJ45 cat.6 socket with anti dust cover (module). Fixing cables without tools or optionally with crimping tool for RJ45 inserts XT100.KEY.
	T61E.01/..	Single RJ45 cat.6 shielded socket with anti dust cover (module). Fixing cables without tools or optionally with crimping tool for RJ45 inserts XT100.KEY.
	T62.01/..	Double RJ45 cat.6 socket with anti dust cover (module). Fixing cables without tools or optionally with crimping tool for RJ45 inserts XT100.KEY.
	T62E.01/..	Double RJ45 cat.6 shielded socket with anti dust cover (module). Fixing cables without tools or optionally with crimping tool for RJ45 inserts XT100.KEY.

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

	T5F.01/..	RJ45 cat.5e socket + RJ12 socket (module).
	TKP2.01/..	Double flat cover for Keystone sockets (module). ❗ Dedicated RJ45 inserts below.
	TKP2S.01/..	Double angled cover for Keystone sockets with a description field (module). Assembly with claws and screws. ❗ Dedicated RJ45 inserts below.
	BWB/..	Blind element for RJ45/RJ12 covers.

INSERTS FOR ITC SOCKETS

Inserts for ITC sockets

	HRJ12	RJ12 telephone socket insert.
---	-------	-------------------------------

Category 5e – UTP (unshielded)

	FCRJ455e	RJ45 computer socket insert cat.5e UTP.
	CJ545U	RJ45 computer socket insert cat.5e UTP Simon Connectivity.
	ARJ455e	RJ45 computer socket insert cat.5e UTP. AMP.

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

	MRJ455e	RJ45 computer socket insert cat.5e UTP. Molex.
---	---------	--

Category 5e – FTP/STP (shielded)

	FBRJ455ekr	RJ45 computer socket insert Cat.5e FTP/STP (shielded) with anti dust cover.
	CJ545FM	RJ45 computer socket insert Cat.5e FTP (shielded) Simon Connectivity. ■ Use with single angled cover DKP15.01/..

Category 6 – UTP (unshielded)

	FBRJ456	RJ45 computer socket insert Cat.6 UTP with anti dust cover.
	CJ645u	RJ45 computer socket insert Cat.6 UTP. Simon Connectivity.
	ARJ456	RJ45 computer socket insert Cat.6 UTP. AMP.
	MRJ456	RJ45 computer socket insert Cat.6 UTP. Molex.

Category 6 – FTP/STP (shielded)

	FBRJ456ekr	RJ45 computer socket insert Cat.6, FTP/STP (shielded) with anti dust cover.
---	------------	---

Category 6A – FTP/STP (shielded)

	FBRJ456Aekr	RJ45 computer socket insert Cat.6A, FTP/STP (shielded) with anti dust cover.
	FRJ456Aekr	RJ45 computer socket insert Cat.6A STP (shielded) FMT.

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

COMPLEMENTARY PRODUCTS

	TPK1.01/..	Cable output (module). Connected cable diameter: 6,2–14,5 mm.
	TA45.01/..	Adapter for standard 45×45 mm. ■ Dedicated to Simon Connectivity ICT sockets.
	TPS.01/.. TP/.. TPS.01/AB111	Blind element (module). Fixing with clamps or screws. Blind element without metal support – fastening only to the frame with a latch. For multiple frames only. Blind element (module). Antibacterial white. Fixing with clamps or screws.
	TESS2.01/..	Signal LED light – red light (module) 230 V~.
	TESS3.01/..	Signal LED light – green light (module) 230 V~.

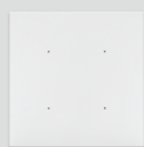

ACCESSORIES

	PCR/..	Covers for motion sensor TECR1.01/.. ■ Supplied with TECR1.01/.. motion sensor
---	--------	---

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

	WKSL	Bursts eliminator for fluorescent or LED bulbs. Dedicated for switches and push buttons with backlight.
	DULB DUL DUL2	LED backlight for switches and push buttons. White light. LED backlight for switches and push buttons. Blue light. 25 V LED backlight for switches and push buttons. Blue light.
	NDF	Tool for pressing RJ45 inserts in computer sockets: T61.01/.., T61E.01/.., T62.01/.., T62E.01/.., D61.01/.., D61E.01/.., D62.01/.., D62E.01/.., BM61.01/.., BM61E.01/.., BM62.01/.., BM62E.01/..
	XT100.KEY	Crimping tool for RJ45 inserts in computer sockets: T61.01/.., T61E.01/.., T62.01/.., T62E.01/.., D61.01/.., D61E.01/.., D62.01/.., D62E.01/.., BM61.01/.., BM61E.01/.., BM62.01/.., BM62E.01/..
	SRM	Level for mechanisms of SIMON 55, SIMON 54, SIMON BASIC.

ROCKERS FOR ELECTRONIC PRODUCTS**

	TKE10/.. TKE1x/..	Single rocker without pictogram for electronic products. Single personalized rocker with an option of printing pictograms.
---	----------------------	---

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

	TKE11/..	Single rocker with single roller blind pictogram for electronic products.
	TKE13/..	Single rocker with group roller blind pictogram for electronic products.
	TKE20/.. TKE2x/..	Half rocker without pictogram for electronic products. Half personalized rocker with an option of printing pictograms.
	TKE21/..	Half rocker with single roller blind pictogram for electronic products.
	TKE23/..	Half rocker with group roller blind pictogram for electronic products.
	TKE24/..	Half left rocker with „+/-“ pictogram for electronic products.
	TKE25/..	Half right rocker with „+/-“ pictogram for electronic products.

** Rockers are not compatible with mechanical products.

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

	<div>TKE40/..</div> <div>TKE4x/..</div>	<div>Rocker 1/4 without pictogram for electronic products.</div> <div>Personalized rocker 1/4 with an option of printing pictograms.</div>

SIMON 55 CONTROLLERS – Wi-Fi

TEW1W.01/..

SWITCH – Single button light controller, controlled by smartphone (module):

- rated voltage 230 V AC $\pm 10\%$,
- rated load current 16 A,
- 30 actions can be saved (1 action = 1 triggered action, e.g. turn on the light),
- power consumption at standby < 1 W,
- transmission: Wi-Fi 2,4 GHz 802.11 b/g/n,
- built-in energy meter,
- changing the brightness and color of the backlight.

TEW2W.01/..

SWITCH D – Double button light controller, controlled by smartphone (module):

- rated voltage 230 V AC $\pm 10\%$,
- rated load current 2×6 A,
- 30 actions can be saved (1 action = 1 triggered action, e.g. turn off the light),
- power consumption at standby < 1 W,
- transmission: Wi-Fi 2,4 GHz 802.11 b/g/n,
- built-in energy meter,
- changing the brightness and color of the backlight.

TESL1W.01/..

DIMMER – Dimmer for dimmable LEDs, keypad (module):

- rated voltage 230 V AC $\pm 10\%$,
- types of loads: dimmable LED bulbs 2–200 W, incandescent bulbs 15–250 W, halogen bulbs 5–250 W,
- 30 actions can be saved (1 action = 1 triggered action, e.g. turn on the light),
- power consumption in standby mode < 1 W,
- transmission: Wi-Fi 2,4 GHz 802.11 b/g/n,
- changing the brightness and color of the backlight.

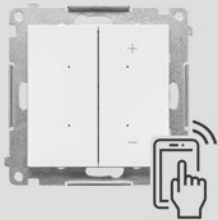

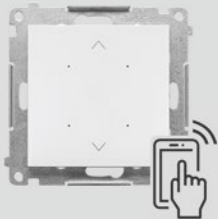

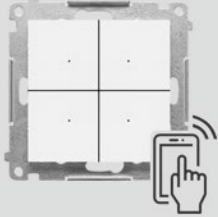

TESW1W.01/..

DIMMER W – Dimmer for LED strips, controlled by a smartphone (module):

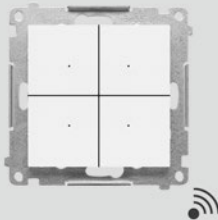

- rated operating voltage 12–24 V,
- maximum current 5 A,
- maximum load 120 W,
- power consumption in standby mode < 1 W,
- transmission: Wi-Fi 2,4 GHz 802.11 b/g/n,
- changing the brightness and color of the backlight.

! Dimmer operates at 12–24 V. An appropriate power supply must be used.

Ordering method: PRODUCT SYMBOL/.. instead of dots, enter the number of the selected color

	TESRGB1W.01/..	<p>DIMMER RGB – Dimmer for RGBW strips, controlled by a smartphone (module):</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V, • maximum current 16 A (4 A/channel), • maximum load 288 W, • color mode: RGB, RGBW, RGB or W, 4×MONO, CT, 2×CT • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n, • changing the brightness and color of the backlight. <p>! Dimmer operates at 12–24 V. An appropriate power supply must be used.</p>
	TEZ1W.01/..	<p>SHUTTER – Button controller for roller blinds, awnings, curtains, controlled by a smartphone, (module):</p> <ul style="list-style-type: none"> • rated voltage 230 V AC ±10%, • rated load current 2×6 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n, • changing the brightness and color of the backlight.
	TEK1W.01/..	<p>CONTROL – Button controller for wireless controls of other Simon GO devices, controlled by a smartphone, (module):</p> <ul style="list-style-type: none"> • 30 actions can be saved (1 action = 1 triggered action, e.g. open blind), • rated voltage 230 V AC ±10%, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n, • changing the brightness and color of the backlight.

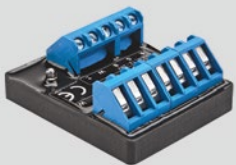

BATTERY TRANSMITTER / REMOTES

	TENB1W.01/..	<p>CONTROL B – Wi-Fi battery transmitter, (module):</p> <ul style="list-style-type: none"> • 28 actions can be saved (1 action = 1 triggered action, e.g. open the blind), • transmission frequency 2,401–2,483 GHz, • communication mode: wireless connection with other Simon GO devices, • range up to 100 m in an open area, up to 40 m in a building. <p>! Controls devices directly, bypassing Wi-Fi router.</p> <p>! 3 V CR123 battery is required – not included.</p>
	CR123	<p>3 V lithium battery, 1400 mAh capacity.</p> <p>! Required to power TENB1W.01/..</p>
	EP4W/11	<p>uRemote PRO – Four-button Wi-Fi remote control:</p> <ul style="list-style-type: none"> • number of buttons: 4, • number of controlled devices per channel: 3, • charging of the remote control: standard microUSB 5 V charger (not included), • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n, • range: up to 100 m in open areas, up to 40 m in buildings, • color: white + metal. <p>! Controls devices directly, bypassing Wi-Fi router.</p>

	EP4W/49	<p>uRemote PRO – Four-button Wi-Fi remote control:</p> <ul style="list-style-type: none"> • number of buttons: 4, • number of controlled devices per channel: 3, • charging of the remote control: standard microUSB 5 V charger (not included), • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n, • range: up to 100 m in open areas, up to 40 m in buildings, • color: black + metal. <p> Controls devices directly, bypassing Wi-Fi router.</p>
---	---------	---

ADDITIONAL CONTROLLERS Wi-Fi

	EBR1	<p>rollerGate – Controller roller gates with support for security systems and percentage preview of gate opening, surface-mounted, controlled by a smartphone [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V, • 2 control outputs, relay, 5 A/1250 VA, • 1 signaling output, relay, 5 A/1250 VA, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EB1W	<p>gateBox – Controller for all types of gates, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V AC/DC, • outputs: 2 control and 2 signal, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EB1W.PRO	<p>gateBox PRO – Controller for garage door, sliding and double-leaf gates with external antenna [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V AC/DC, • outputs: 2 impuls, • power consumption in standby mode <1 W, • protection level: IP54, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	ED1W	<p>doorBox – Gate and/or door controller, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V AC/DC, • 1 relay output 6 A, 24 V, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	ESW1W	<p>wLightBoxS – Dimmer for LED strips, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V, • maximum current 5 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.

	ESRGB1W	<p>wLightBox – Dimmer for LED light, LED RGB/RGBW/CT, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V, • maximum current 12 A (3 A/channel), • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	ESPIX1W	<p>pixelBox – Dimmer for WS2812/WS2811 programmable LED strips, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 5–12 V, • maximum current 5 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EAMP4	<p>ampBox – Four-channel „amplifier” for LED/RGBW LED strips, recessed:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V DC, • maximum current 20 A, • maximum current per channel 5 A, • maximum power 480 W, • input signal: PWN, common VCC or GND, • output signal: PWM, common VCC.
	EW1W	<p>switchBox – Device and light controller, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • rated load current 1×16 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EW2W	<p>switchBoxD – Double device and light controller, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • rated load current 2×5 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EW1W.L	<p>switchBox light – Device and light controller, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • rated load current 1×5 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EW3W.PRO	<p>witchBoxT PRO – Triple potential-free switch [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • maksymalny prąd: 3×16 A, 5–230 V (AC1), 3×16 A, 5–24 V (DC1), • power consumption: <1 W (standby), <2 W (work), • protection level: IP54, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.

	EZ1W	<p>shutterBox – Controller for operating roller blinds, blinds, awnings, curtains, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V, • rated load current 2×5 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EZ1W.DC	<p>shutterBoxDC – Controller for interior blind and Roman blinds, surface-mounted, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V, • rated load current 2×2 A, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EK4W	<p>actionBox – Action trigger controller, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • number of inputs: 4, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	EK1W	<p>actionBoxS – Action trigger controller, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • power consumption at standby <1 W, • number of inputs: 1, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	ET2W	<p>thermoBox – Controller for heating or cooling with possibility of working with 2 digital sensors, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • rated load current 16 A, • number of sensors: 2 (main and optional), • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n. <p>■ 1 m digital sensor included.</p>
	<p>ETS1</p> <p>ETS2</p> <p>ETS5</p>	<p>Digital temperature sensor for ET2W – 1 m.</p> <p>Digital temperature sensor for ET2W – 2 m.</p> <p>Digital temperature sensor for ET2W – 5 m.</p>

Wi-Fi SENSORS

	ECT1W.AC	<p>tempsensorAC – Temperature sensor from -55 to 125 degrees Celsius, recessed, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • range: from -55°C to 125°C, • accuracy $\pm 0,5^{\circ}\text{C}$ in the range from -10°C to 85°C, • power consumption at standby <1 W, • maximum number of sensors connected: 4, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n. <p>■ 1 m digital sensor included.</p>
	ECT1W	<p>tempSensor – Temperature sensor from -55 to 125 degrees Celsius with one-year history and interactive graph, surface-mounted, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • 5 V power supply via micro USB connector, • range: from -55°C to 125°C, • accuracy $\pm 0.5^{\circ}\text{C}$ • sensor type: wired, waterproof, cable length 1 m, • power consumption at standby <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	ECT1W.PRO	<p>tempSensor PRO – Temperature sensor from -55° to 125° Celsius with one-year history and interactive graphs [Wi-Fi]:</p> <ul style="list-style-type: none"> • powered by 12–24 V DC, • range: from -55°C to 125°C, • controller operating temperature from -20°C to 50°C • accuracy $\pm 0,5^{\circ}\text{C}$ in the range from -10°C to 85°C, • sensor type: wired, waterproof, cable length 2 m, • power consumption in standby mode <1 W, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
	ECW1W.PRO	<p>Wind speed sensor, capable of measuring from 0 to 30 m/s (0–11 on the Beaufort scale) [Wi-Fi]:</p> <ul style="list-style-type: none"> • measurement range: 0 to 30 m/s, • accuracy ± 1 m/s, • rated operating voltage 230 V AC, • power consumption in standby mode <1 W, • transmission frequency: 2,4 GHz.
	ECD1W	<p>rainSensor – Rain sensor, with ability to control other devices, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 12–24 V DC, • maximum load 6 W, • type of measurement: rainfall detection, • power consumption <1 W (standby), <1,5 W (with heating), • output type: open-drain, mass-controlled, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.

	ECP1W	<p>airSensor – Air quality sensor, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • powered by 12–24 V AC/DC or 5 V via micro USB, • classification of fine dust particles: PM1, PM2.5, PM10, • transmission: Wi-Fi 2,4 GHz 802.11 b/g/n.
---	-------	---

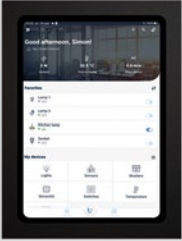

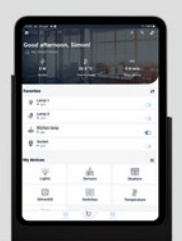

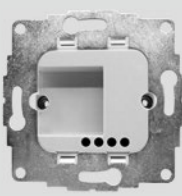

ADDITIONAL Wi-Fi modules for DIN rail

	EZ1W.DIN	<p>shutter DIN – Controller for roller blinds, blinds, awnings, curtains, screens, smartphone-controlled [Wi-Fi]:</p> <ul style="list-style-type: none"> • rated operating voltage 230 V, • rated load current 2 × 5 A, • mounting on a DIN rail.
	EW1W.DIN	<p>switch DIN – Single controller with built-in energy meter, smartphone-controlled [WiFi];</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • rated load current 1 × 16 A, • mounting on a DIN rail.
	EW2W.DIN	<p>switchD DIN – Double controller with built-in energy meter, smartphone-controlled [Wi-Fi];</p> <ul style="list-style-type: none"> • rated operating voltage 230 V AC, • rated load current 2 × 5 A, • mounting on a DIN rail.

MOBILE APPLICATIONS

	wBox by blebox.eu	<p>Application for remote control of Simon GO products with a smartphone or tablet, available for Android, iOS and Windows.</p> <div data-bbox="1011 1574 1422 1697">    </div> <div data-bbox="1011 1682 1422 1697"> GOOGLE PLAY APP STORE MICSROSOFT STORE </div>

Examples of connecting controllers in a Wi-Fi network by using actions

Some Simon GO controllers have the ACTION functionality. Thanks to this ACTIONS, individual controllers can be connected together so that one controller controls another connected to the same Wi-Fi network.

Control from many places

By using CONTROL controllers

By using SWITCH controllers

Central control

Roller blinds

Different types of controllers

Use of sensors
