

Simon | 24

The energy of everyday life

KONTAKT simon

A new standard in wiring accessories

Classic form, harmonious design, and modern functional solutions all in one.
The Simon 24 series combines a timeless look with innovative technologies, bringing ultimate comfort to your everyday life.

Classic style, quality, and harmony

Electrical installations that naturally adapt to any interior. With classic colours, harmonious shapes, and matte or glossy finishes, you can effortlessly match every detail with the character of your home.

Simon | 24

KONTAKT simon

Simon|24

Series features

ANTIBACTERIAL PRODUCTS

Elevated hygiene standards for daily living.

Antibacterial frames and switches are made of plastic containing additives that reduce bacterial growth on the surface. This solution elevates hygiene levels in high-traffic areas and environments requiring strict hygiene standards – such as hospitals, schools, offices, or public buildings. Functionality seamlessly meets aesthetics and durability, with no impact on the product's appearance.

Available colours: white, green, red.

ILLUMINATION OF HOTEL SPACES

Comfort that enhances the mood.

Solutions that enhance guest comfort and ensure their safety are key in hotel spaces. The Simon 24 series fits seamlessly into any interior, delivering practical features without compromising the overall design.

Automatic step lighting with a motion sensor simplifies navigation and guarantees comfort both day and night.

STAIR AND HALLWAY LIGHTING

Light right when you need it.

Use luminaires wherever you need additional lighting for stairways, corridors, or darker rooms. For areas where light should turn on automatically, choose luminaires equipped with a motion sensor.

These elements maintain a unified design with switches, dimmers, and sockets. As a result, you can install them in single or multi-gang frames to create practical combinations – such as pairing them with a power outlet.

They are available in three colour temperatures, allowing you to tailor the lighting effect to the character of your interior.

QUADRUPLE CONTROLLER

Everything under control from a single spot.

Control up to four circuits from a single flush box and gain full control over lighting or other devices. You can switch between push-button and toggle-switch modes, as well as set a 15-second off-delay.

This allows you to easily customize your installation to your needs – the light can turn off automatically after a short delay (for example, in a bathroom or hallway), or remain on longer in a living room or on a terrace.

The controller supports devices powered by both 230 V AC and low-voltage 12/24 V DC (when the controller itself is powered by 230 V). It is perfectly suited for both conventional installations and modern home automation systems, enabling central management of multiple functions from a single point.

The **favorite roller blind position** feature allows you to save a specific blind setting into the controller's memory. You can recall the programmed position with a long press of a button – whether from a local or group controller, or via a central controller. This solution ensures precise, repeatable blind positioning for everyday use.

Local blind controller

Group blind controller

ELECTRONIC BLIND CONTROLLERS

**Effortless control of blinds
and roller shutters
in your home.**

Control your blinds easily and conveniently using electronic blind controllers. Thanks to the automatic calibration feature, the controller stores the full travel length of the blind, ensuring precise and reliable operation. A single press of a button is all it takes to fully open or close the blinds.

You can also set up centralized control with the option to split blinds into separate groups. This keeps all your blinds manageable from a single location: for example, right by the front door.

ELECTRONIC THERMOSTAT WITH DISPLAY

Thermal comfort under your control.

Control the room temperature exactly to your liking – manually or via time schedules using our electronic thermostat with an easy-to-read display.

Schedules allow you to enhance thermal comfort while reducing energy consumption when you are away, such as during working hours or while traveling.

The thermostat features a display with adjustable brightness and contrast, as well as a range of functions designed to simplify daily operation and precise heating control.

- Control of boilers, thermostatic heads, electric underfloor heating, and cooling systems
- Operating modes: manual, automatic, holiday, timer, automatic mode with one or three weekly schedules
- Screen saver with button lock function
- Option to connect an external temperature sensor (probe)
- Built-in indoor temperature sensor
- Display brightness and contrast adjustment
- Volt-free contact 16 A

Simon|24GO[®]

Traditional wiring,
smartphone control

Smartphone-controlled electrical installation

CONTROL YOUR HOME
USING THE SIMON 24 GO
EQUIPMENT AND
MOBILE APP

Simon 24 GO is a range of modern push-button controllers that allow you to conveniently manage lighting, blinds, and other devices.

You can use either the traditional wall button, the free mobile app, or voice assistants.

The system combines classic operation with smart home functionality.

5 ways to control your home

CONTROL
CONVENTIONALLY
using the controller button.

SMARTPHONE
CONTROL
with free Android and iOS app.

CONTROL
BY VOICE
using Amazon Alexa
or Google Assistant.

CONTROL
VIA SCHEDULES
at specific set times or based
on sunrise and sunset.

CONTROL
VIA SENSORS
automatically, e.g. upon detecting rain,
strong wind, or a temperature drop.

MASTER YOUR LIGHTING

With **SWITCH**, **SWITCH D**, and **SWITCH Q** (quadruple) lighting controllers, you can operate the lights in your home using a smartphone, tablet, wall button, or voice.

NEW – Quadruple controller

Operate up to four devices from just one module with independent control for each channel. A straightforward, dependable solution designed to customize your system setup to your exact requirements.

The **TIMER** function converts your switch into a time delay controller. Easily schedule lighting to turn on or off after a set duration – in seconds, minutes, or hours – whether manually, automatically, or via the mobile app.

DIMMER AND LED LIGHTING CONTROL

Simon GO dimmers deliver seamless light control customized for any occasion.

The **230 V LED dimmer** provides smooth brightness adjustment with multi-point wired dimming support.

The range also includes **low-voltage 12/24 V dimmers** designed for Mono, CCT, and RGBW LED strips, which allow you to:

- Brightness adjustment
- Colour selection
- Colour temperature control

Lighting Effects

With the **EFFECTS** feature, bring custom lighting scenes to life: set smooth colour fades, custom dimming, or dynamic transitions using the mobile app, voice commands, or a traditional wall switch.

CONTROL ROLLER SHUTTERS, BLINDS, AWNINGS, AND CURTAINS

With the **SCHEDULES** function, you can automatically control your blinds, including synchronization with sunrise and sunset in your location.

Create central blind control using the **CONTROL** or **CONTROL B** controllers, a remote control, or the mobile app. You can also utilize scenes and groups, or operate your blinds via voice commands.

The **SHUTTER** controller provides complete control over blinds, awnings, curtains, projection screens, and venetian blinds with slat angle adjustment – directly from the app, using a wall controller or via voice assistants.

CONTROL EVERYTHING

Operate other system devices wirelessly with the **CONTROL** module, the battery-operated **CONTROL B**, or the **uREMOTE** handset.

With the **CONTROL OTHER DEVICES** functionality, interconnect your Wi-Fi network devices for multi-location operation – giving you seamless control over Simon GO controllers placed anywhere in the house.

Device Communication Types

CONTROLLERS AND SENSORS

Scale your system using flush-mounted or surface-mounted Wi-Fi switches and smart sensors tracking temperature, wind, rain, and air quality. By monitoring environmental conditions, the sensors trigger automatic actions – such as closing shutters and skylights or stopping lawn sprinklers – boosting both security and convenience.

ECT1W.AC
Temperature sensor

ED1W
Gate and door controller

EBR1
Roller door controller
(surface-mounted)

EB1W
Controller for all gate types

CONTROL LIGHTS, BLINDS, AND CONNECTED APPLIANCES DIRECTLY FROM YOUR SMARTPHONE OR TABLET. ALL YOU NEED IS YOUR STANDARD HOME WI-FI ROUTER.

EASY SETUP

Configure and save settings and features locally, directly in the controller via the mobile app or a web browser.

CONNECT ADDITIONAL CONTROLLERS

Easy connection of additional controllers allows you to scale and expand your installation according to your needs.

WORKS EVEN OFFLINE

No internet connection? No problem. All settings remain saved locally, giving you full control over your home Wi-Fi network anytime.

USE SCHEDULES

Schedule settings for a specific controller and let it perform tasks for you. From now on, automatically turning on lights, raising blinds, or starting garden irrigation at set times will be remarkably simple. What is more, your controller automatically adjusts its schedule to sunrise and sunset.

STAY CONNECTED GLOBALLY

Keep your controllers in check from anywhere in the world via an internet connection. Manage your home using your smartphone – whether you are on vacation, a business trip, or a weekend getaway.

The Mobile App

DOWNLOAD THE APP FROM THE GOOGLE PLAY STORE FOR ANDROID DEVICES OR THE APP STORE FOR IOS DEVICES.

The free **Simon GO** app, available for Android and iOS, allows you to control lighting, blinds, and other devices – both from home and from anywhere in the world.

Personalize your home in the mobile app by changing the main screen wallpaper and background colour. This allows you to easily distinguish between your installations at home, in the office, or at your holiday cottage.

Assign suitable icons to each Simon GO device so you can easily find the specific controller in the app, even in the most extensive installation.

Create custom scenes and add controllers with individually programmed settings. Trigger them with a single tap – using a convenient widget on your smartphone's home screen.

Organize devices into groups by room or feature for faster navigation. Easily control multiple devices at once with just one touch.

Thanks to animated icons, you can quickly identify which device is currently turned on. Use switches or time-delay buttons to change the status of the connected device.

	NPN2/..	Double surface-mounted box, (complete product)
	NPN3/..	Triple surface-mounted box, (complete product)

CONTROLLERS, SWITCHES, AND PUSH-BUTTONS IP20/IP44

	NW1.01E/..	Single-pole 1-way switch, (module), IP20/IP44, 10 AX, quick connection
	NW1.01E/AB11	Single-pole 1-way switch, (module), IP20/IP44, 10 AX, quick connection  Antibacterial version.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NEW1W.01/..	Single lighting controller [Wi-Fi] SWITCH, (module), IP20, 16 A, screw terminals • Rated operating voltage 230 V AC ±10% • Rated load current 16 A • Auxiliary push-button input (multi-location wired control) • Capacity for 30 actions (1 action = 1 triggered event, e.g. switch on light) • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n • Integrated energy metering
	NW1L.01/..	Single-pole 1-way switch with backlight LED, (module), IP20/IP44, 10 AX, quick connection
	NW1ZL.01/..	Single-pole 1-way switch with indicator LED, (module), IP20/IP44, 10 AX, quick connection
	NW6.01E/.. NW6.01E/X/..	Two-way switch, (module), IP20/IP44, 10 AX, quick connection Two-way switch without pictogram, (module), IP20/IP44, 10 AX, quick connection
	NW6.01E/X/AB11	Two-way switch without pictogram, (module), IP20/IP44, 10 AX, quick connection ■ Antibacterial version.
	NW6L.01/.. NW6L.01/X/..	Two-way switch with LED illumination, (module), IP20/IP44, 10 AX, quick connection Two-way switch with LED illumination without pictogram, (module), IP20/IP44, 10 AX, quick connection

Ordering method: CODE/.. replace the dots with the chosen color number.

	NW7.01/.. NW7.01/X/..	Intermediate switch, (module), IP20/IP44, 10 AX, quick connection Intermediate switch without pictogram, (module), IP20/IP44, 10 AX, quick connection
	NW7.01/X/AB11	Intermediate switch without pictogram, (module), IP20/IP44, 10 AX, quick connection ■ Antibacterial version.
	NW7L.01/.. NW7L.01/X/..	Intermediate switch with LED illumination, (module), IP20/IP44, 10 AX, quick connection Intermediate switch with LED illumination without pictogram, (module), IP20/IP44, 10 AX, quick connection
	NP1.01E/.. NPR1.01E/..	Single contact push button without pictogram, (module), IP20/IP44, 10 AX, 10 A, quick connection Single break push button without pictogram, (module), IP20/IP44, 10 AX, 10 A, quick connection
	NP1.01E/AB11	Single contact push button without pictogram, (module), IP20/IP44, 10 AX, 10 A, quick connection ■ Antibacterial version.
	NP1L.01/..	Single contact pushbutton with LED illumination, (module), IP20/IP44, 10 AX, 10 A, quick connection
	ND1.01E/..	Single contact push button with „bell” pictogram, (module), IP20/IP44, 10 AX, 10 A, quick connection

Ordering method: CODE/.. replace the dots with the chosen color number.

	ND1L.01/..	Single contact push button with „bell” pictogram, with LED indicator light, (module), IP20/IP44, 10 AX, 10 A, quick connection
	NS1.01E/..	Single contact push button with „light” pictogram, (module), IP20/IP44, 10 AX, 10 A, quick connection
	NS1L.01/..	Single contact push button with „light” pictogram, with LED indicator light, (module), IP20/IP44, 10 AX, 10 A, quick connection
	NW31.01/..	Triple switch, (module), IP20, 10 AX, 10 A, quick connection ■ Available only in IP20 version.
	NP31.01/..	Triple push button, (module), IP20, 10 AX, 10 A, quick connection ■ Available only in IP20 version.
	NP4.01/..	Quadruple pushbutton, (module), IP20, 10 A, quick connection ■ Available only in IP20 version.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NEW4.01/..	Electronic switch 4-fold, (module), 16 A, IP20, screw terminals • Operating modes: switch or push-button independently for each circuit • Delay off function setting option • Rated operating voltage: 230 V AC ±10% • Total load current: max. 16 A (AC1 category) or max. 8 A (AC3 category) • Rated load current per channel: 6 A (AC1 category), 2 A (AC3 category) • Option to control four circuits powered by 230 V or low voltage (e.g. 12 V) • Standby power consumption: <1 W • Suitable for home automation applications
	NEW4W.01/..	Quadruple lighting controller, controlled by a smartphone [Wi-Fi] SWITCH Q, (module), IP20, screw terminals • Rated operating voltage 230 V AC ±10% • Rated load current 4x5 A, max. 16 A • Option to store 30 actions (1 action = 1 triggered task, e.g., turn off the light) • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n • Integrated energy metering
	NW5.01E/..	Two gang switch, (module), IP20/IP44, 10 AX, quick connection
	NW5.01E/AB11	Two gang switch, (module), IP20/IP44, 10 AX, quick connection ■ Antibacterial version.
	NEW2W.01/..	Double lighting controller [Wi-Fi] SWITCH D, (module), IP20, screw terminals • Rated operating voltage 230 V AC ±10% • Rated load current 2x6 A • Option to store 30 actions (1 action = 1 triggered task, e.g., turn off the light) • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n • Integrated energy metering
	NW5L2.01/..	Two gang switch with LED illumination, (module), IP20/IP44, 10 AX, quick connection

Ordering method: CODE/.. replace the dots with the chosen color number.

	NP2.01/..	Double pushbutton without pictogram, (module), IP20, 10 AX, 10 A, quick connection Available only in IP20 version.
	NW6/2.01/..	Double two-way switch, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW6/2.01/X/..	Double two-way switch without pictogram, (module), IP20,10 AX, quick connection Available only in IP20 version.
	NW6/2L2.01/..	Double two-way switch with LED illumination - separate backlight for each key, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW6/2L2.01/X/..	Double two-way switch with LED illumination - separate backlight for each key without pictogram, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW7/2.01/..	Double intermediate switch, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW7/2.01/X/..	Double intermediate switch without pictogram, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW7/2L2.01/..	Double intermediate switch with LED illumination, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW7/2L2.01/X/..	Double intermediate switch with LED illumination without pictogram, (module), IP20, 10 AX, quick connection Available only in IP20 version.
	NW2.01/..	Two-pole switch, (module), IP20/IP44, 10 AX, quick connection
	NW2L.01/..	Two-pole switch with indicator LED, (module), IP20/IP44, 10 AX, quick connection

Ordering method: CODE/.. replace the dots with the chosen color number.

DIMMERS

	NESL1.01/..	Push dimmer with LED illumination, (module), IP20, screw terminals - Rated operating voltage 230 V AC ±10% - Load types: dimmable LED bulbs 2–200 W, incandescent lamps 15–250 W, halogen lamps 5–250 W - Standby power consumption <1 W - Option to save favorite brightness level „Time to bed” function (delayed switch-off) - Multi-location dimming option in two-way switching using an additional push-button
	NES9LA.01/..	Dimmer for dimmable LED’s, rotary-push, 1 pole, (module), IP20, quick connection - Rated operating voltage 230 V AC ±10% - Load types: dimmable LED bulbs 6–60 W, incandescent lamps 6–120 W, halogen lamps 5–250 W - Option to turn lighting on or off from multiple locations in two-way switching using a two-way switch or intermediate switch
	NESL1W.01/..	Smartphone-controlled dimmer for LED bulbs [Wi-Fi] DIMMER W, (module), IP20, screw terminals - Rated operating voltage 230 V AC ±10%, - Load types: dimmable LED bulbs 2–200 W, incandescent lamps 15–250 W, halogen lamps 2–200 W - Capacity for 30 actions (1 action = 1 triggered event, e.g. switch on light) - Standby power consumption <1 W - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n
	NESW1W.01/..	Dimmer for LED strips 12-24 V, controlled by a smartphone [Wi-Fi] - DIMMER RGBW, (module), 120 W, IP20, screw terminals - Rated operating voltage 12–24 V - Maximum current 5 A - Maximum load 120 W - Standby power consumption <1 W - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n - The dimmer operates at 12–24 V (an appropriate power supply unit must be used)

Ordering method: CODE/.. replace the dots with the chosen color number.

NESRGB1W.01/..

Dimmer for RGBW strips 12-24 V, controlled by a smartphone [Wi-Fi] DIMMER RGBW, (module), 288 W, IP20, screw terminals

- Rated operating voltage 12–24 V
- Maximum current 16 A (4 A/channel)
- Maximum load 288 W
- Colour mode: RGB, RGBW, RGB or W, 4×MONO, CT, 2×CT
- Standby power consumption <1 W
- Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n
- The dimmer operates at 12–24 V (an appropriate power supply unit must be used)

ELECTRONIC CONTROLLERS

NEW4.01/..

Electronic switch 4-fold, (module), IP20, 16 A, screw terminals

- Operating modes: switch or push-button independently for each circuit
- Delay off function setting option
- Rated operating voltage 230 V AC ±10%
- Total load current: max. 16 A (AC1 category) or max. 8 A (AC3 category)
- Rated load current per channel: 6 A (AC1 category), 2 A (AC3 category)
- Option to control four circuits powered by 230 V or low voltage (e.g. 12 V)
- Standby power consumption <1 W
- Suitable for home automation

NEW4W.01/..

Quadruple lighting controller with built-in energy measurement, controlled by a smartphone [Wi-Fi] SWITCH Q, (module), IP20, 4x 5 A, max. 16 A, screw terminals

- Rated operating voltage 230 V AC ±10%
- Rated load current 4x5 A, max. 16 A
- Capacity for 30 actions (1 action = 1 triggered event, e.g. switch on light)
- Standby power consumption <1 W
- Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n
- Integrated energy metering

WIRELESS ROLLER BLIND CONTROL

Ordering method: CODE/.. replace the dots with the chosen color number.

NEZ1W.01/..

Local roller blind controller, controlled by a smartphone [Wi-Fi] SHUTTER, (module), IP20, 2x 6 A, screw terminals

- Rated operating voltage 230 V AC ±10%
- Rated load current 2x6 A
- Standby power consumption <1 W
- Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n

NEZG1W.01/..

Group roller blind controller, controlled by a smartphone [Wi-Fi] CONTROLSHUTTER, (module), IP20, 8 A, screw terminals

- Rated operating voltage 230 V AC ±10%
- Rated operating frequency 50 Hz
- Rated load current 8 A (AC1 category), 2 A (AC3 category)
- Standby power consumption <1 W
- Option to set a favorite roller blind position on individual NEZ1W.01/.. wireless controllers
- Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n

NEK1W.01/..

Programmable controller that wirelessly controls other Simon GO devices, controlled by a smartphone [Wi-Fi] CONTROL, (module), IP20, screw terminals

- Option to store 30 actions (1 action = 1 triggered activity, e.g., open roller blind)
- Rated operating voltage 230 V AC ±10%
- Standby power consumption <1 W
- Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n

WIRED ROLLER BLIND CONTROL

NEZ1L.01/..

Local roller blind controller, (module), IP20, 8A (AC1) / 2A (AC3), screw terminals

- Rated operating voltage 230 V AC ±10%
- Rated operating frequency 50 Hz
- Rated load current 8 A (AC1 category), 2 A (AC3 category)
- Standby power consumption <1 W
- Automatic or manual shutter travel calibration
- Option to program one or two preferred shutter positions
- Option to reverse the direction of shutter movement

■ Can be operated using the NEZ1G.01/.. group shutter controller or a shutter switch. Additional wiring is required.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NEZ1G.01/..	Group roller blind controller, (module), IP20, 8 A (AC1) / 2 A (AC3), screw terminals • Rated operating voltage 230 V AC ±10% • Rated operating frequency 50 Hz • Rated load current 8 A (AC1 category), 2 A (AC3 category) • Standby power consumption <1 W • Option to trigger the favorite roller blind position set on individual NEZ1L.01/.. local controllers ■ Can be controlled via a roller blind push-button or an additional NEZ1G.01/.. group roller blind controller for central control purposes. Additional wiring required.
	NZW1K.01/.. NZP1K.01/..	Three position roller blind control switch 1-0-2, (module), IP20/IP44, 10 A, quick connection Roller blind push button 1-0-2, (module), IP20/IP44, 10 A, quick connection
	NZW1K.01/AB11 NZP1K.01/AB11	Three position roller blind control switch 1-0-2, (module), IP20/IP44, 10 A, quick connection ■ Antibacterial version. Roller blind push button 1-0-2, (module), IP20/IP44, 10 A, quick connection ■ Antibacterial version.
	NZW2.01/.. NZP2.01/..	Double three position blind control switch 1-0-2, (module), IP20/IP44, 10 A, quick connection Double roller blind push button 1-0-2, (module), IP20/IP44, 10 A, quick connection
	NEZ2.01/..	Double electronic roller blind controller, (module), IP20, 6 A (AC1) / 2 A (AC3), screw terminals • Rated operating voltage 230 V AC ±10% • Option to control two roller blind motors powered by 230 V or low voltage (e.g. 12 V) • Rated load current: 6 A (AC1 category), 2 A (AC3 category) • Standby power consumption <1 W • Option to program roller blind travel length • Option to program a favorite position for individual roller blinds ■ No connection capability to central roller blind control.

Ordering method: CODE/.. replace the dots with the chosen color number.

TEMPERATURE CONTROLLERS

	NETD1A.01/..	Programmable thermostat with display, (module), IP20, 16 A / 3600 W (AC1), 2 A /450 VA (AC3), screw terminals • Rated operating voltage 230 V AC ±10% • Rated load current: 16 A (AC1 category), 2 A (AC3 category) • Integrated internal sensor or option to connect an additional external sensor (NTC probes: 10k, 12k, 15k, 22k, 47k) • Weekly schedule for each day of the week • Adjustable display brightness and contrast • Operating modes: manual, automatic, holiday, timer • Heating or cooling mode • Screen saver
	NTC-03	Temperature sensor, resistance 10 kΩ, cable length 3 m
	NTC-03-47K	Temperature sensor, resistance 47 kΩ, cable length 3 m

STAIRS AND CORRIDORS LIGHTING

	NOS3K.01/.. NOS4K.01/.. NOS5K.01/..	LED luminaire, (module), col. temperature: 3000°K, 230 V (1,1 W), IP20, screw terminals LED luminaire, (module), col. temperature: 4000°K, 230 V (1,1 W), IP20, screw terminals LED luminaire, (module), col. temperature: 5700°K, 230 V (1,1 W), IP20, screw terminals ■ Available on request.
	NOSC3K.01/.. NOSC4K.01/.. NOSC5K.01/..	LED luminaire with motion sensor, (module), col. temperature: 3000°K, 230 V (1,4 W), IP20, quick connection LED luminaire with motion sensor, (module), col. temperature: 4000°K, 230 V (1,4 W), IP20, quick connection LED luminaire with motion sensor, (module), col. temperature: 5700°K, 230 V (1,4 W), IP20, quick connection ■ Available on request.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NOS3K14.01/..	LED luminaire, (module), col. temperature: 3000°K, 14 V (0,56 W), IP20, screw terminals ■ Special power supplies are listed below.
	NOS4K14.01/..	LED luminaire, (module), col. temperature: 4000°K, 14 V (0,56 W), IP20, screw terminals ■ Special power supplies are listed below.
	NOS5K14.01/..	LED luminaire, (module), col. temperature: 5700°K, 14 V (0,56 W), IP20, screw terminals ■ Available on request. ■ Special power supplies are listed below.
	NOSC3K14.01/..	LED luminaire with motion sensor, (module), col. temperature: 3000°K, 14 V (0,78 W), IP20, screw terminals ■ Special power supplies are listed below.
	NOSC4K14.01/..	LED luminaire with motion sensor, (module), col. temperature: 4000°K, 14 V (0,78 W), IP20, screw terminals ■ Special power supplies are listed below.
	NOSC5K14.01/..	LED luminaire with motion sensor, (module), col. temperature: 5700°K, 14 V (0,78 W), IP20, screw terminals ■ Available on request. ■ Special power supplies are listed below.
	ZL14P-08	LED flush mounted power supply unit, 14 V (DC), 8 W
	ZL14P-15	LED flush mounted power supply unit, 14 V (DC), 15 W
	ZL14N-08	LED surface mounted power supply unit, 14 V (DC), 8 W
	ZL14N-15	LED surface mounted power supply unit, 14 V (DC), 15 W

Ordering method: CODE/.. replace the dots with the chosen color number.

	ZL14M-08	LED modular power supply, DIN rail mounted, 14 V (DC), 8 W, screw terminals
---	----------	---

USB CHARGERS

	NEC2CAQ.01/..	Double USB charger, (module), 30 W, IP20, screw terminals • Rated operating voltage 127–230 V AC ±10% • Charging power / output: Type-A + Type-C: 15 W (5.0 V, 3.0 A), Type-A / Type-C (single port): 30 W (5.0 V, 3.0 A; 9.0 V, 3.0 A; 12.0 V, 2.5 A; 15.0 V, 2.0 A; 20.0 V, 1.5 A)
---	---------------	--

SOCKET OUTLETS

	NGZ1CZ.01E/..	Socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection
	NGZ1C.01E/..	Socket outlet with earthing, (module), IP20, 16 A, quick connection
	NGZ1CZ.01E/AB11	Socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NGZ1CZ.01E/22	Socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection
	NGZ1CZ.01E/AB22	Socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection ■ Antibacterial version.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGZ1CZ.01E/AB33	Socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NGZ2MCZ.01/.. NGZ2MC.01/..	Double socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection Double socket outlet with earthing, (module), IP20, 16 A, quick connection
	NGZ2MCZ.01/AB11	Double socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NGZ2MCZ.01/AB22	Double socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NGZ2MCZ.01/AB33	Double socket outlet with earthing and shutters, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NG2MCZ.01/.. NG2MC.01/..	Double socket outlet without earthing with shutters, (module), IP20, 16 A, quick connection Double socket outlet without earthing, (module), IP20, 16 A, quick connection

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGZ1BCZ.01E/11	Socket outlet with earthing and shutters, IP44 (with frame seal), 16 A, quick connection, flap in cover colour ■ The product is available only in colour 11.
	NGZ1BC.01E/11	Socket outlet with earthing, IP44 (with frame seal), 16 A, quick connection, flap in cover colour ■ The product is available only in colour 11.
	NGZ1BCZ.01E/AB11	Socket outlet with earthing and shutters, IP44 (with frame seal), 16 A, quick connection, flap in cover colour ■ Antibacterial version.
	NGZ1BCZ.01E/22	Socket outlet with earthing and shutters, IP44 (with frame seal), 16 A, quick connection, flap in cover colour
	NGZ1BCZ.01E/AB22	Socket outlet with earthing and shutters, IP44 (with frame seal), 16 A, quick connection, flap in cover colour ■ Antibacterial version.
	NGZ1BCZ.01E/AB33	Socket outlet with earthing and shutters, IP44 (with frame seal), 16 A, quick connection, flap in cover colour ■ Antibacterial version.
	NGZ1BCZ.01E/..A NGZ1BC.01E/..A	Socket outlet with earthing and shutters, IP44 (with frame seal), 16 A, quick connection, transparent flap Socket outlet with earthing, IP44 (with frame seal), 16 A, quick connection, transparent flap

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGZ1BCUZ.01E/11	Socket outlet with earthing and shutters, IP44 (without frame seal), 16 A, quick connection, flap in cover colour ■ The product is available only in colour 11. ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCU.01E/11	Socket outlet with earthing, IP44 (without frame seal), 16 A, quick connection, flap in cover colour ■ The product is available only in colour 11. ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCUZ.01E/AB11	Socket outlet with earthing and shutters, IP44 (without frame seal), 16 A, quick connection, flap in cover colour ■ Antibacterial version. ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCUZ.01E/22	Socket outlet with earthing and shutters, IP44 (without frame seal), 16 A, quick connection, flap in cover colour ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCUZ.01E/AB22	Socket outlet with earthing and shutters, IP44 (without frame seal), 16 A, quick connection, flap in cover colour ■ Antibacterial version. ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCUZ.01E/AB33	Socket outlet with earthing and shutters, IP44 (without frame seal), 16 A, quick connection, flap in cover colour ■ Antibacterial version. ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCUZ.01E/..A	Socket outlet with earthing and shutters, IP44 (without frame seal), 16 A, quick connection, transparent flap ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ1BCU.01E/..A	Socket outlet with earthing, IP44 (without frame seal), 16 A, quick connection, transparent flap ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGZ2TSZ/..	Double angled socket outlet with earthing and shutters and current phase constancy, (complete product), IP20, 16 A, screw terminals ■ Designed for flush-mounting box ø 68 mm. ■ Complete product – cannot be installed in multi-gang frames.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGZ2BMCZ.01/..	Double socket outlet with earthing and shutters, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour
	NGZ2BMC.01/..	Double socket outlet with earthing, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour
	NGZ2BMCZ.01/..A	Double socket outlet with earthing and shutters, (module), IP44 (with frame seal), 16 A, quick connection, transparent flap
	NGZ2BMC.01/..A	Double socket outlet with earthing, (module), IP44 (with frame seal), 16 A, quick connection, transparent flap
	NGD1CZ.01/..	DATA socket outlet with access key, (module), IP20, 16 A, quick connection
	NGD1CZ.01/22	DATA socket outlet with access key, (module), IP20, 16 A, quick connection
	NGD1CZ.01/AB22	DATA socket outlet with access key, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NGD1CZ.01/AB33	DATA socket outlet with access key, (module), IP20, 16 A, quick connection ■ Antibacterial version.
	NGD1BCZ.01/..	DATA socket outlet with access key, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour ■ The product is available only in colour 11.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGD1BCZ.01/AB11 DATA socket outlet with access key, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour Antibacterial version.
	NGD1BCZ.01/22 DATA socket outlet with access key, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour
	NGD1BCZ.01/AB22 DATA socket outlet with access key, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour Antibacterial version.
	NGD1BCZ.01/AB33 DATA socket outlet with access key, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour Antibacterial version.
	NGEK1.01/.. Single equipotential socket, (module), IP20
	NGEK1.01/AB11 Single equipotential socket, (module), IP20 Antibacterial version.
	NGEK2.01/.. Double equipotential socket, (module), IP20

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGEK2.01/AB11 Double equipotential socket, (module), IP20 Antibacterial version.
	NGSZ1CZ.01E/.. Socket outlet with Schuko earthing with shutters, (module), IP20, 16 A, quick connection
	NGSZ1C.01E/.. Socket outlet with Schuko earthing, (module), IP20, 16 A, quick connection
	NGSZ1CZ.01E/AB11 Socket outlet with Schuko earthing with shutters, (module), IP20, 16 A, quick connection Antibacterial version.
	NGSZ1CZ.01E/22 Socket outlet with Schuko earthing with shutters, (module), IP20, 16 A, quick connection
	NGSZ1BCZ.01E/11 Socket outlet with Schuko earthing with shutters, (module), IP44 (with frame seal), 16 A, quick connection, flap in cover colour The product is available only in colour 11.
	NGSZ1BCZ.01E/..A Socket outlet with Schuko earthing with shutters, (module), IP44 (with frame seal), 16 A, quick connection, transparent flap
	NGSZ1BCUZ.01E/11 Socket outlet with Schuko earthing with shutters, (module), IP44 (without frame seal), 16 A, quick connection, flap in cover colour The product is available only in colour 11. A frame seal is necessary to achieve IP44 ingress protection.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGSZ1BCUZ.01E/..A	Socket outlet with Schuko earthing with shutters, (module), IP44 (without frame seal), 16 A, quick connection, transparent flap ■ A frame seal is necessary to achieve IP44 ingress protection.
	NGSZ2/..	Double socket outlet with Schuko earthing without shutters, (complete product), IP20, 16 A, screw terminals ■ Complete product – cannot be installed in multi-gang frames.

AERIAL, LOUDSPEAKER AND HDMI SOCKETS

	NAK.01/..	R-TV final separated aerial socket, (module), 1 input 5–862 MHz TV IEC male 5–70 MHz & 120–862 MHz; 1,0 dB R IEC female 88–108 MHz 1,5 dB
	NAP10.01/..	R-TV pass-through aerial socket, (module), 10 dB, 1 input 5–862 MHz TV IEC male 5–70 MHz & 120–862 MHz; 10 dB R IEC female 88–108 MHz 11 dB
	NAZ.01/..	R-TV final aerial socket for pass-through socket, (module), 10 dB, 1 input 5–862 MHz TV IEC male 5–70 MHz & 120–862 MHz; 10 dB R IEC female 88–108 MHz 11 dB
	NASK.01/..	R-TV-SAT final aerial socket, (module), 1 input 5 MHz–2,4 GHz SAT type „F“ 950 MHz–2,4 GHz 1,0 dB TV IEC male 5–70 MHz & 120–862 MHz; 1,0 dB R IEC female 88–108 MHz 1,0 dB
	NASP.01/..	R-TV-SAT pass through aerial socket, (module), 6 dB, 1 input 5 MHz–2,4 GHz SAT type „F“ 950 MHz–2,4 GHz 8,0 dB TV IEC male 5–70 MHz & 120–862 MHz; 12,0 dB R IEC female 88–108 MHz 12,0 dB
	NASK2.01/..	SAT-SAT-RTV double aerial socket, (module), 2 inputs 5 MHz–2,4 GHz SAT type „F“ 950 MHz–2,4 GHz 0,5 dB SAT type „F“ 5 MHz–2,4 GHz 1,5 dB TV IEC male 5–862 MHz 0,5 dB
	NAD1.01/..	RTV-DATA final aerial socket, (module), 1 input 5–1000 MHz

Ordering method: CODE/.. replace the dots with the chosen color number.

	NAK1.01/..	Single IEC antenna socket - male terminal, (module)
	NASF1.01/..	Single aerial socket type „F“, (module)
	NASF2.01/..	Double aerial socket type „F“, (module)
	NASFRJ45.01/..	Aerial socket type „F“ + computer socket RJ45 cat. 6, (module)
	NGL1.01/..	Single loudspeaker socket outlet, (module), connects 1 loudspeaker Conductor cross-section for input and output: 2.5 mm².
	NGL2.01/..	Double loudspeaker socket outlet, (module), connects 2 loudspeakers Conductor cross-section for input and output: 2.5 mm².
	NGL4.01/..	Quadruple loudspeaker socket outlet, (module), connects 4 loudspeakers Conductor cross-section for input and output: 2.5 mm².

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGL.01/..	Single loudspeaker socket outlet, (module), connects 1 loudspeaker Conductor cross-section for input and output: 6 mm².
	NGHDMI121.01/..	HDMI 2.1 single socket, (module) • Maximum HDMI data transmission rate: 48 Gbit/s • Supported resolution standard: 4K 230 Hz, 8K 60 Hz
	NGHDMI221.01/..	HDMI 2.1 double socket, (module) • Maximum HDMI data transmission rate: 48 Gbit/s • Supported resolution standard: 4K 230 Hz, 8K 60 Hz
	NGH21RJ45.01/..	HDMI 2.1 socket + computer socket RJ45 cat. 6, (module) • Maximum HDMI data transmission rate: 48 Gbit/s • Supported resolution standard: 4K 230 Hz, 8K 60 Hz
	NGHDUSB3.01/..	HDMI 2.1 socket + USB 3.0 data transfer socket, (module) • Maximum HDMI data transmission rate: 48 Gbit/s • Supported resolution standard: 4K 230 Hz, 8K 60 Hz
	NGUSB23.01/..	Double USB-A 3.0 data transfer socket, (module)

Ordering method: CODE/.. replace the dots with the chosen color number.

OPTICAL FIBER SOCKETS

	NGS1.01/..	SC/APC single fiber optic socket, (module)
	NGS2.01/..	SC/APC double fiber optic socket, (module)

TELEPHONE AND DATA SOCKETS

	NT1.01/..	RJ11 single telephone socket, (module)
	NF1.01/..	RJ12 single telephone socket, (module)
	NT2.01/..	RJ11 double telephone socket, (module)
	NF2.01/..	RJ12 double telephone socket, (module)
	N51.01/..	RJ45 cat. 5e single data socket, (module) Tool-free cable fixing or optionally via RJ45, NDF, or XT100.KEY crimping tool.
	N61.01/..	RJ45 cat. 6 single data socket, (module) Tool-free cable fixing or optionally via RJ45, NDF, or XT100.KEY crimping tool.

Ordering method: CODE/.. replace the dots with the chosen color number.

	N61E.01/..	RJ45 cat. 6 single shielded data socket with anti-dust cover, (module) Tool-free cable fixing or optionally via RJ45, NDF, or XT100.KEY crimping tool.
	N52.01/..	RJ45 cat. 5e double data socket, (module) Tool-free cable fixing or optionally via RJ45, NDF, or XT100.KEY crimping tool.
	N62.01/..	RJ45 cat. 6 double data socket, (module) Tool-free cable fixing or optionally via RJ45, NDF, or XT100.KEY crimping tool.
	N62E.01/..	RJ45 cat. 6 double shielded data socket with anti-dust cover, (module) Tool-free cable fixing or optionally via RJ45, NDF, or XT100.KEY crimping tool.
	N5T.01/..	RJ45 cat. 5e data socket + RJ11 telephone socket, (module)
	N5T12.01/..	RJ45 cat. 5e data socket + RJ12 telephone socket, (module)

Ordering method: CODE/.. replace the dots with the chosen color number.

COVERS FOR TELEPHONE AND DATA SOCKETS

	NKP2.01/..	Double Keystone flat data/telephone socket cover ■ Suitable RJ45 connectors are listed below.
	NKP2.01/AB11	Double Keystone flat data/telephone socket cover ■ Antibacterial version. ■ Suitable RJ45 connectors are listed below.
	NKP2S.01/..	Double Keystone angled data/telephone socket cover with descriptive field ■ Suitable RJ45 connectors are listed below.
	NKP2S.01/AB11	Double Keystone angled data/telephone socket cover with descriptive field ■ Antibacterial version. ■ Suitable RJ45 connectors are listed below.
	BWB/..	RJ45/RJ12 blind for data/telephone socket covers
	BWBF/..	„F“ connector for data/telephone socket covers

Ordering method: CODE/.. replace the dots with the chosen color number.

CONNECTORS FOR TELEPHONE AND DATA SOCKETS

Telephone connectors

	HRJ12	RJ12 telephone socket insert
---	-------	------------------------------

Data connectors cat. 5e – UTP (unshielded)

	FCRJ455e	RJ45 cat. 5e data socket insert, unshielded (UTP)
	CJ545U	RJ45 cat. 5e data socket insert, unshielded (UTP), brand Simon Connectivity
	ARJ455e	RJ45 cat. 5e data socket insert, unshielded (UTP), brand AMP
	MRJ455e	RJ45 cat. 5e data socket insert, unshielded (UTP), brand Molex

Data connectors cat. 5e – FTP/STP (shielded)

	FBRJ455ekr	RJ45 cat. 5e data socket insert, shielded (FTP), with anti-dust cover
	CJ545FM	RJ45 cat. 5e data socket insert, shielded (FTP), brand Simon Connectivity

Data connectors cat. 6 – UTP (unshielded)

	FBRJ456	RJ45 cat. 6 data socket insert, unshielded (UTP), with anti-dust cover
	CJ645u	RJ45 cat. 6 data socket insert, unshielded (UTP), brand Simon Connectivity
	ARJ456	RJ45 cat. 6 data socket insert, unshielded (UTP), brand AMP

Ordering method: CODE/.. replace the dots with the chosen color number.

	MRJ456	RJ45 cat. 6 data socket insert, unshielded (UTP), brand Molex
---	--------	---

Data connectors cat. 6 – FTP/STP (shielded)

	FBRJ456ekr	RJ45 cat. 6 data socket insert, shielded (FTP/STP), with anti-dust cover
---	------------	--

Data connectors cat. 6a – FTP/STP (shielded)

	FBRJ456Aekr	RJ45 cat. 6a data socket insert, shielded (FTP/STP), with anti-dust cover
	RRJ456Aekr	RJ45 cat. 6a data socket insert, shielded (FTP/STP), with anti-dust cover, brand Rutenbeck

COMPLEMENTARY PRODUCTS

	NPK1.01/..	Cable input, (module) ■ Permissible connected conductor diameter: 6.2–14.5 mm.
	NA45.01/..	Transition adapter for 45x45 mm fitting type, (module) ■ Intended for Simon Connectivity telecommunication outlets.
	NPS.01/..	Blind element, (module), mounting via claws or screws
	NPS.01/AB11	Blind element, (module), mounting via claws or screws ■ Antibacterial version.

Ordering method: CODE/.. replace the dots with the chosen color number.

ACCESSORIES

	WKSL	Bursts eliminator for energy saving bulbs and LEDs
	KGD2	DATA socket key, spare piece ■ Intended for products: NGD1CZ.01/.., NGD1ZP/.., NGD1ZBP/..
	NDF	Crimping pliers for RJ45 connectors in data sockets ■ Intended for products: T61.01/.., T61E.01/.., T62.01/.., T62E.01/.., D61.01/.., D61E.01/.., D62.01/.., D62E.01/.., BM61.01/.., BM61E.01/.., BM62.01/.., BM62E.01/.., N61.01/.., N61E.01/.., N62.01/.., N62E.01/..
	XT100.KEY	Crimping pliers for RJ45 connectors in data sockets ■ Intended for products: TT61.01/.., T61E.01/.., T62.01/.., T62E.01/.., D61.01/.., D61E.01/.., D62.01/.., D62E.01/.., BM61.01/.., BM61E.01/.., BM62.01/.., BM62E.01/.., N61.01/.., N61E.01/.., N62.01/.., N62E.01/..
	NRM	Installation spirit level intended for Simon 24 cover frames

ROCKERS AND SOCKET COVERS FOR MECHANICAL PRODUCTS

	NKW1/..	Single button (rocker) without pictogram for NW1.01/.., NW6.01/X/.., NP1.01/.., NPR1.01/..
--	---------	--

Ordering method: CODE/.. replace the dots with the chosen color number.

	NKW1/AB11	Single button (rocker) without pictogram for NW1.01/AB11, NW6.01/X/AB11, NP1.01/AB11 ■ Antibacterial version.
	NKW1L/..	Single button (rocker) without pictogram for NW1L.01/.., NW6L.01/X/.., NP1L.01/..
	NKW5/..	Buttons for double switch (rocker) without pictogram
	NKW5/AB11	Buttons for double switch (rocker) without pictogram ■ Antibacterial version.
	NKW6/..	Single button (rocker) for single switch with pictogram „stairs“
	NKW6/2/..	Double button (rocker) for double switch with pictograms „stairs“
	NKZW1/..	Single button (rocker) for single roller blind switch and pushbutton with pictogram „arrows“

Ordering method: CODE/.. replace the dots with the chosen color number.

	NKZW2/..	Double button (rocker) for double roller blind switch and pushbutton with pictograms „arrows“, for NZW2.01/.., NZP2.01/..
	NKZW2/X/..	Double button (rocker) without pictogram for NP2.01/.., NP4.01/.., NZW2.01/.., NZP2.01/..
	NGZ1ZP/..	Cover for single socket outlet with shutters, IP20
	NGZ1ZP/AB11	Cover for single socket outlet with shutters, IP20 Antibacterial version.
	NGZ1BUZP/11	Cover for single socket outlet with shutters, IP44, flap in cover colour The product is available only in colour 11.
	NGZ1BUZP/..A	Cover for single socket outlet with shutters, IP44, transparent flap
	NGZ1BUZP/AB11	Cover for single socket outlet with shutters, IP44, flap in cover colour Antibacterial version.

Ordering method: CODE/.. replace the dots with the chosen color number.

	NGZ2MZP/..	Cover for double socket outlet with shutters, IP20
	NGZ2MZP/AB11	Cover for double socket outlet with shutters, IP20 Antibacterial version.

SMART WI-FI CONTROLLERS

	NEW1W.01/..	Single lighting controller [Wi-Fi] SWITCH, (module), IP20, 16 A, screw terminals - Rated operating voltage 230 V AC $\pm 10\%$ - Rated load current 16 A - Auxiliary push-button input (multi-location wired control) - Capacity for 30 actions (1 action = 1 triggered event, e.g. switch on light) - Standby power consumption <1 W - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n - Integrated energy metering
	NEW2W.01/..	Double lighting controller [Wi-Fi] SWITCH D, (module), IP20, screw terminals - Rated operating voltage 230 V AC $\pm 10\%$ - Rated load current 2x6 A - Option to store 30 actions (1 action = 1 triggered task, e.g., turn off the light) - Standby power consumption <1 W - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n - Integrated energy metering
	NEW4W.01/..	Quadruple lighting controller with built-in energy measurement, controlled by a smartphone [Wi-Fi] SWITCH Q, (module), IP20, 4x 5 A, max. 16 A, screw terminals - Rated operating voltage 230 V AC $\pm 10\%$ - Rated load current 4x5 A, max. 16 A - Capacity for 30 actions (1 action = 1 triggered event, e.g. switch on light) - Standby power consumption <1 W - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n - Integrated energy metering
	NEZ1W.01/..	Local roller blind controller, controlled by a smartphone [Wi-Fi] SHUTTER, (module), IP20, 2x 6 A, screw terminals - Rated operating voltage 230 V AC $\pm 10\%$ - Rated load current 2x6 A - Standby power consumption <1 W - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n
	NEZG1W.01/..	Group roller blind controller, controlled by a smartphone [Wi-Fi] CONTROLSHUTTER, (module), IP20, 8 A, screw terminals - Rated operating voltage 230 V AC $\pm 10\%$ - Rated operating frequency 50 Hz - Rated load current 8 A (AC1 category), 2 A (AC3 category) - Standby power consumption <1 W - Option to set a favorite roller blind position on individual NEZ1W.01/.. wireless controllers - Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n

Ordering method: CODE/.. replace the dots with the chosen color number.

	NESL1W.01/..	Smartphone-controlled dimmer for LED bulbs [Wi-Fi] DIMMER W, (module), IP20, screw terminals • Rated operating voltage 230 V AC ±10%, • Load types: dimmable LED bulbs 2–200 W, incandescent lamps 15–250 W, halogen lamps 2–200 W • Capacity for 30 actions (1 action = 1 triggered event, e.g. switch on light) • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n
	NESW1W.01/..	Dimmer for LED strips 12-24 V, controlled by a smartphone [Wi-Fi] - DIMMER RGBW, (module), 20 W, IP20, screw terminals • Rated operating voltage 12–24 V • Maximum current 5 A • Maximum load 120 W • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n • The dimmer operates at 12–24 V (an appropriate power supply unit must be used)
	NESRGB1W.01/..	Dimmer for RGBW strips 12-24 V, controlled by a smartphone [Wi-Fi] DIMMER RGBW, (module), 288 W, IP20, screw terminals • Rated operating voltage 12–24 V • Maximum current 16 A (4 A/channel) • Maximum load 288 W • Colour mode: RGB, RGBW, RGB or W, 4×MONO, CT, 2×CT • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n • The dimmer operates at 12–24 V (an appropriate power supply unit must be used)
	NEK1W.01/..	Programmable controller that wirelessly controls other Simon GO devices, controlled by a smartphone [Wi-Fi] CONTROL, (module), IP20, screw terminals • Option to store 30 actions (1 action = 1 triggered activity, e.g., open roller blind) • Rated operating voltage 230 V AC ±10% • Standby power consumption <1 W • Transmission: Wi-Fi 2.4 GHz 802.11 b/g/n

SMART REMOTE WI-FI CONTROLLERS

	NENB1W.01/..	Programmable battery-powered remote controller that wirelessly controls other Simon GO devices, controlled by a smartphone [Wi-Fi] CONTROL B, (module), IP20, quick connection • Memory for up to 28 actions (1 action = 1 triggered activity, e.g. open roller shutter) • Transmission frequency: 2.401–2.483 GHz • Communication mode: wireless connection with other Simon GO modules • Range: up to 100 m in open terrain, up to 40 m indoors • Controls devices directly without using a Wi-Fi router • Requires 3 V CR123 battery – not included
	CR123	Lithium battery CR123, capacity 1400 mAh, required for powering NENB1W.01/..

Ordering method: CODE/.. replace the dots with the chosen color number.

	EP4W/11	Wi-Fi four-button remote control – uremote PRO, white • Number of buttons: 4 • Supported devices per channel: 3 • Remote control charging: standard microUSB 5 V charger (not included) • Transmission: 2.4 GHz Wi-Fi 802.11 b/g/n • Range: up to 100 m in open terrain, up to 40 m indoors • Controls devices directly without using a Wi-Fi router
	EP4W/49	Wi-Fi four-button remote control – uremote PRO, black • Number of buttons: 4 • Supported devices per channel: 3 • Remote control charging: standard microUSB 5 V charger (not included) • Transmission: 2.4 GHz Wi-Fi 802.11 b/g/n • Range: up to 100 m in open terrain, up to 40 m indoors • Controls devices directly without using a Wi-Fi router

SMART WI-FI FLUSH-MOUNTED AND SURFACE-MOUNTED CONTROLLERS

	EBR1	Controller for roller shutters with security system support, [Wi-Fi] rollergate (surface junction box controller) • Rated operating voltage: 230 V • 2 control outputs, relay, 5 A, 1250 VA • 1 signaling output, relay, 5 A, 1250 VA • Standby power consumption: < 1 W
	EB1W	Controller for all types of gates, [Wi-Fi] gatebox (flush-mounted controller) • Rated operating voltage: 12–24 V AC/DC • Outputs: 2 control and 2 signaling • Standby power consumption: < 1 W
	EB1W.PRO	Controller for garage, sliding and double-leaf doors and gates with an external antenna, [Wi-Fi] gateBox PRO (module with an external antenna) • Rated operating voltage: 12–24 V AC/DC • Outputs: 2 impulse • Standby power consumption: < 1 W • Ingress protection rating: IP54
	ED1W	Controller for gates and doors, [Wi-Fi] doorBox, 6A, 24V AC/DC (flush-mounted controller) • Rated operating voltage: 12–24 V AC/DC • 1 relay output: 6 A, 24 V • Standby power consumption: < 1 W

Ordering method: CODE/.. replace the dots with the chosen color number.

	ESL1W	Dimmer for 230 V AC LED, [Wi-Fi] - dimmerbox, 200 W for resistive load 30 W for LED bulbs (flush-mounted controller) • Rated operating voltage: 230 V AC • Maximum load: 30 W for LED bulbs • Standby power consumption: < 1 W
	ESW1W	Dimmer for 12-24 V DC LED strips, [Wi-Fi], 120 W (flush-mounted controller) • Rated operating voltage: 12–24 V DC • Maximum current: 5 A • Standby power consumption: < 1 W
	ESRGB1W	Dimmer for 12-24 V DC LED lighting, [Wi-Fi], 288 W (flush-mounted controller) • Rated operating voltage: 12–24 V DC • Maximum current: 12 A (3 A/channel) • Standby power consumption: < 1 W
	ESV1W	Regulator for 0/1-10V or 0-5V, 5-24 V DC, [Wi-Fi] dacBox DC, 2x 20 mA (flush-mounted controller) • Rated operating voltage: 5–24 V DC • Maximum load: 20 mA/channel • Standby power consumption: < 1 W
	ESPIX1W	Dimmer for programmable LED strips type WS2812/WS2811, [Wi-Fi], 60 W (flush-mounted controller) • Rated operating voltage: 5–12 V DC • Maximum current: 5 A • Standby power consumption: < 1 W
	EAMP4	Four-channel amplifier for LED/LED RGBW strips, [Wi-Fi], 480 W (flush-mounted controller) • Rated operating voltage: 12–24 V DC • Maximum current: 20 A, maximum channel current: 5 A • Maximum power: 480 W • Input signal: PWM, common VCC or GND • Output signal: PWM, common VCC
	EW1W	Controller for devices and lighting 230 V DC, [Wi-Fi] switchBox v3, 16 A (flush-mounted controller) • Rated operating voltage: 230 V AC • Rated load current: 1×16 A • Standby power consumption: < 1 W

Ordering method: CODE/.. replace the dots with the chosen color number.

	EW2W	Controller for devices and lighting 2x 5 A, [Wi-Fi] switchBox D, 3500 W (flush-mounted controller) • Rated operating voltage: 230 V AC • Maximum current: 2×5 A • Standby power consumption: < 1 W
	EW1W.L	Controller for devices and lighting 230 V, [Wi-Fi] switchBox LIGHT, 1150 W for resistive load (flush-mounted controller) • Rated operating voltage: 230 V AC • Maximum current: 1×5 A • Standby power consumption: < 1 W
	EW3W.PRO	Triple potential free high power switch, [Wi-Fi] switchBoxT Pro (module with an external antenna) • Rated operating voltage: 230 V AC • Maximum current: 3×16 A, 5–230 V (AC1), 3×16 A, 5–24 V (DC1) • Power consumption: < 1 W (standby mode), < 2 W (operating mode) • Ingress protection rating: IP54
	EZ1W	Controller for blinds, [Wi-Fi] shutterBox, 1000 W (flush-mounted controller) • Rated operating voltage: 230 V AC • Maximum current: 2×5 A • Standby power consumption <1 W
	EZ1W.DC	Controller for indoor and Roman blinds, [Wi-Fi] shutterBoxDC, 48 W (flush-mounted controller) • Rated operating voltage: 12–24 V DC • Maximum current: 2×2 A • Standby power consumption <1 W
	ED1W.PRO	Controller for gates and/or doors with external antenna, smartphone controlled, [Wi-Fi] doorBox Pro, 5 A / 230 V AC, 5 A / 30 V DC, (module with an external antenna) • Rated operating voltage: 12–24 V AC/DC • 1 relay output: 6 A, 24 V • Standby power consumption: < 1 W • External antenna for extended range • Reinforced weather-resistant enclosure • Advanced automation and scheduling options

Ordering method: CODE/.. replace the dots with the chosen color number.

	EK4W	Multifunctional action trigger, [Wi-Fi] actionBox (flush-mounted controller) - Rated operating voltage: 230 V AC - Number of inputs: 4 - Standby power consumption: < 1 W
	EK1W	Action trigger, [Wi-Fi] actionBoxS, capability to connect external devices or trigger other controllers (flush-mounted controller) - Rated operating voltage: 230 V AC - Number of inputs: 1 - Standby power consumption: < 1 W
	ET2W	Thermostat for heating or cooling control with the ability to work with 2 digital probes, [Wi-Fi] thermoBox, 16A / 230 V AC, 16A / 24 V DC (flush-mounted controller) - Rated operating voltage: 230 V AC - Rated load current: 1×16 A - Number of supported sensors: 2 (main and optional safety) - Standby power consumption: < 1 W - Included in package: 1 m digital sensor
	ETS1	Digital temperature probe for ET2W [Wi-Fi] thermoBox (probe), cable length: 1 m
	ETS2	Digital temperature probe for ET2W [Wi-Fi] thermoBox (probe), cable length: 2 m
	ETS5	Digital temperature probe for ET2W [Wi-Fi] thermoBox (probe), cable length: 5 m
	ETS15	Digital temperature probe for ET2W [Wi-Fi] thermoBox (probe), cable length: 15 m

Ordering method: CODE/.. replace the dots with the chosen color number.

	ETS30	Digital temperature probe for ET2W [Wi-Fi] thermoBox (probe), cable length: 30 m
---	-------	--

SMART WI-FI SENSORS

	ECS1W	Light sensor, [WiFi] luxSensor, IP65, illuminance sensor (lux, lx) - Power supply: via USB-A or 5–24 V DC from an external power source - Illuminance measurement: (lux, lx) - Measurement range: 0–50 000 lx - Standby power consumption: < 1 W - Ingress protection rating: IP65
	ECT1W.AC	Temperature sensor, [Wi-Fi] tempSensorAC, with 1 m probe length, max. 4 temperature probes - Rated operating voltage: 230 V AC - Measurement range: -55 °C to +125 °C - Measurement accuracy: ±0.5 °C within the range of -10 °C to +85 °C - Maximum number of connected probes: 4 - Standby power consumption: < 1 W - Included in package: 1 m digital probe
	ECT1W.C	Temperature sensor, [Wi-Fi] tempSensor, with 1 m probe length, max. 1 temperature probe - Power supply: 5 V via USB-C connector - Measurement range: -55 °C to +125 °C - Measurement accuracy: ±0.5 °C - Probe type: wired, waterproof, cable length 1 m - Standby power consumption: < 1 W
	ECT1W.PRO	Temperature sensor, [Wi-Fi] tempSensor Pro, with an external antenna, with 2 m probe length, max. 1 temperature probe - Power supply: 5–24 V DC - Measurement range: -55 °C to +125 °C - Controller operating temperature: -20 °C to +50 °C - Measurement accuracy: ±0.5 °C within the range of -10 °C to +85 °C - Probe type: wired, waterproof, cable length 2 m - Standby power consumption: < 1 W

Ordering method: CODE/.. replace the dots with the chosen color number.

	ECW1W.PRO Wind speed sensor, [Wi-Fi] windSensor Pro • Measurement range: 0 to 30 m/s (0 to 11 on the Beaufort scale) • Measurement accuracy: ±1 m/s • Rated operating voltage: 12–24 V DC • Standby power consumption: < 1 W
	ECD1W Rain sensor with the capability to control other devices, [Wi-Fi] rainSensor • Rated operating voltage: 12–24 V DC • Maximum load: 6 W • Measurement type: rainfall detection (start and end) • Power consumption: < 1 W (standby mode), < 1.5 W (with heating) • Output type: open-drain, ground-controlled (GND)
	ECP1W Air quality sensor, [Wi-Fi] airSensor • Power supply: 12–24 V AC/DC or 5 V via micro-USB connector • Fine particulate matter classification: PM1, PM2.5, PM10

SMART WI-FI DIN RAIL CONTROLLERS

	EZ1W.DIN Controller for roller blinds, blinds, awnings or curtains, [Wi-Fi] shutter DIN • Rated operating voltage: 230 V AC • Rated load current: 2×5 A • Mounting: DIN rail
	EW1W.DIN Single controller with built-in energy measurement, [Wi-Fi] switch DIN • Rated operating voltage: 230 V AC • Rated load current: 1×16 A • Mounting: DIN rail
	EW2W.DIN Dual controller (AC) with built-in energy measurement, [Wi-Fi] switchD DIN • Rated operating voltage: 230 V AC • Rated load current: 2×5 A • Mounting: DIN rail

Ordering method: CODE/.. replace the dots with the chosen color number.

	EW2WDC.DIN Dual controller (DC) with built-in energy measurement, [Wi-Fi] switchDC DIN • Rated operating voltage: 12–24 V DC • Rated load current: 2×5 A • Mounting: DIN rail
	ECT1W.DIN Temperature sensor, [Wi-Fi] tempSensor DIN • Rated operating voltage: 230 V AC • Measurement range: -55 °C to +125 °C • Measurement accuracy: ±0.5 °C • Supports up to 4 tempProbe sensors simultaneously • Standby power consumption: < 1 W • Mounting: DIN rail
	

MOBILE APPLICATION

	SimonGO Application for remote control of Simon GO products via smartphone or tablet, available for Android and iOS 
--	---

TABLET HOLDERS

	GFC1G10/.. Closed wall mount for tablets Apple iPad 10,9" and Apple iPad 11", charging cable included in package  Product is available in colors 111 and 149.  Tablet not included.
	GFC2A9+/. Closed wall mount for tablets Samsung Galaxy Tab A9+ 11" and Samsung Galaxy Tab A11+ 11", charging cable included in package  Product is available in colors 111 and 149.  Tablet not included.

Ordering method: CODE/.. replace the dots with the chosen color number.

	GFO1G10/.. Open wall mount for tablets Apple iPad 10,9" and Apple iPad 11", charging cable included in package Product is available in colors 111 and 149. Tablet not included.
	GFO2A9+../ Open wall mount for tablets Samsung Galaxy Tab A9+ 11" and Samsung Galaxy Tab A11+ 11", charging cable included in package Product is available in colors 111 and 149. Tablet not included.
	DSP-95-USB Flush-mounted USB charger, 1x USB-C, max. 20 W Rated operating voltage: 100–230 V AC ±10% Charging current: 2.4 A / 5 V Designed for GFC.. and GFO.. wall mounts. Cannot be installed in a frame.
